2005 Census of Agriculture and Forestry

Questionnaire for Survey on Management Entity of Agriculture and Forestry

Prefecture use (excluding Okinawa)

February 1, 2005

Before filling in this form be sure to read "How to fill Questionnaire."

This survey form **will not be used for any purpose other than compiling statistics**, so please fill it in fully and truthfully.

Name of an manager or name / name of representative of an Management Entities of agriculture and forestry

Address of location

Telephone No.

All respondents please fill in this part

1. Is it family managed?
(i.e. a farming or forestry household)

(Be sure to encircle one item.)

	Family managed	Not family managed
101	1	2

2. Please indicate the status of the juridical body.

(Be sure to encircle one item.)

It is a juridical body.										
	Company					Group				Local public body, property ward
	Agricultural producers' cooperative corporation	Joint stock company	Incorporated company	Unlimited and limited partnership	Mutual company	Agricultural cooperative	Forestry cooperative	Other groups	Other juridical body	
102	01	02	03	04	05	06	07	08	09	10
										11

3. Enter separately by headquarter and branch office.

(Enter a circle in the corresponding part.)

Single office	☐
Headquarter/ main office	☐
Branch office	☐

In the case of a branch office, please enter the name of the headquarters or main office and its address and telephone number.

Headquarters / main office	Name
	Address
	Telephone Number

Respondents that answered, "Family managed" in 1.

Please go to "[1] Household" on page 2.

Respondents that answered "Not family managed" in 1.

Respondents performing only forestry activities

Please go to "[11] Forestry" on page 10.

Other respondents

Please go to "[2] Characteristics of farm management" on page 4.

Respondents that answered, "Family managed" in cover page are requested to fill in this

[1] Household

- How many members are in this household?
- How many members of this household are 14 years old or younger (born on February 1, 1990 or after)?
- Please enter details about members of this household who are 15 years old or older (born on January 31, 1990 or before)?

	Male (persons)	Female (persons)
103		
104		

Please note the following when completing this section

• **Household members** refers to people living together in a cooperative manner. Even a person who has left the house to work temporarily elsewhere is a household member if he/she plays an economic role in the household.

Please enter details of circumstances during the
(Days are calculated based on 1 day = 8 hours. For

Names (Only the names of family members 15 years of age or older (born on or before January 31, 1990) should be entered. As long as an enumerator can identify members later, codes for them such as A, B, and C can be used.)	Age (Age on February 1, 2005)	Sex Male Female	Relationship to head of household (Select and enter a number from the table at the bottom of the page.)	Working days for family farming (Combined working days at own farming business and farming carried out on a contracted-out basis)																Working days aside from family farming															
				Did not work	1 to 29 days	30 to 59 days	60 to 99 days	100 to 149 days	150 to 199 days	200 to 249 days	250 days or more	Did not work	1 to 29 days	30 to 59 days	60 to 99 days	100 to 149 days	150 to 199 days	200 to 249 days	250 days or more

Respondents doing only forestry activities, please go to [11] Forestry on page 10.

[2] Characteristics of farm management

Only respondents who answered "Family operated" on the cover page are requested to fill in this section.

1. Does the farm management have family arrangements for delegation of management, working conditions, and profit sharing?

(Be sure to encircle one item.)

	Yes	No
109	1	2

2. Do you use double-entry bookkeeping for the farm management?

(Be sure to encircle one item.)

	It dose book-keeping.	It dose't book-keeping.
110	1	2

3. Do you use a blue income tax return for the farm management?

(Be sure to encircle one item.)

	Yes	No
111	1	2

Only respondents who answered "Not family managed" and "Not juridical body" on the cover page are requested to fill in this section.

4. If you participate in a cooperative farm management organization, fill in the number of participating households.

(Enter a circle in the corresponding part.)

Not cooperative farm management organization

Cooperative farm management organization

		Participating households	
		(households)	Of these, farming households
Total number of participating households	112		
Number of participating households working 30 days or more in farming activities, including management activities.	113		

5. Do more than approximately half the households in the agricultural community participate in the farm management?

(Be sure to encircle one item.)

	They participate.	They do not participate.
114	1	2

6. Do you produce agricultural products under a contract with consumers or agricultural product marketing companies?

(Be sure to encircle one item.)

	Yes	No
115	1	2

7. Efforts to perform sustainable agriculture

Do you perform a cultivation of crops for the purpose of sale by less using of chemical fertilizer or agricultural pesticide than customary using in the region, or by reducing the burden on the environment through fertilizing barnyard manure?

(Enter a circle in the corresponding part.)

No

Yes

(Be sure to encircle all relevant items.)

	Efforts to less chemical fertilizer use	Efforts to less use of agricultural pesticide	Use of barnyard manure to prepare soil
116	1	1	1

8. Agricultural production related business

Do you conduct business activities related to farming?

(Enter a circle in the corresponding part.)

No

Yes

(Be sure to encircle all relevant items.)

	Processing agricultural products	Direct marketing to stores and consumers	Activities using rented fields, areas of farming experience, etc.	Tourist farming	Farm B&B	Farmers' restaurant	Other
117	1	1	1	1	1	1	1

If you circled one of these items, enter the number of users during the past year.

		1,000	100	10	(person)
Tourist farming	118				
Farm B&B	119				
Farmres' restaurant	120				

[3] Land

Please note the following when completing this page

- Please enter the present land category and surface area, not those entered in the land register.
- The surface area should include dykes.
- Land in other cities, wards, towns, and villages also should be included.
- Abandoned paddy fields, land under permanent crops, and upland fields mean land that has not been fertility managed for at least one year and will not be fertility managed in the future. Furthermore, abandoned land does not include land that has been becoming wasteland.

1. Paddy field

		(ha)	(a)
Owned paddy field (excluding land like wasteland that is no longer farmland)	202		
Of the above, paddy fields rented to others (including paddy fields whose management is contracted out to others)	203		
Of the above, abandoned paddy fields (not cropped for at least one year and will not be cropped in the future)	204		
Paddy fields rented from others (including land to be entrusted with others)	205		
Paddy fields under management (202 - 203 - 204 + 205)	①		

What sort of cultivation has been carried out on the paddy fields under management in the past year?

		(ha)	(a)
Paddy field rice (excluding green-cut rice)	208		
Of the above, paddy fields with two crops a year	209		
Paddy fields with crops other than rice (including green-cut rice)	210		
Paddy fields without any crops (fallow paddy fields) (excluding abandoned paddy fields)	211		

(The total of 208, 210, and 211 equals "Paddy fields under management ①".)

→ Enter surface area by crop (total area for each crop).

		(ha)	(a)
Wheat and Barley	212		
Soybeans	213		
Other grains	214		
Feed and forage crops	215		
Industrial crops	216		
Others	217		

2. Land under permanent crops (excluding ordinary upland fields and temporary meadows)

		(ha)	(a)
Owned land under permanent crops (excluding land that has become no longer farmland such as wasteland.)	218		
Of the above, land under permanent crops rented to others (including land under permanent crops whose management is entrusted to others)	219		
Of the above, abandoned land under permanent crops (not cropped for at least one year and will not be cropped in the future)	220		
Land under permanent crops rented from others (including land to be entrusted with others)	221		
Land under permanent crops under management (218 - 219 - 220 + 221)	②		

3. Upland field (including temporary meadows, excluding land under permanent crops)

		(ha)	(a)
Owned upland field (excluding land that has become no longer farm land such as wasteland.)	224		
Of the above, upland field land rented to others (including upland field whose management is entrusted to others)	225		
Of the above, abandoned upland field (not cropped for at least one year and will not be cropped in the future)	226		
Upland field land rented from others (including upland field land to be entrusted with others)	227		
Upland field under management (224 - 225 - 226 + 227)	③		

In the past year, what sort of cultivation has been carried out on the upland field under management?

		(ha)	(a)
Upland field growing general crops (excluding upland fields used for feed and forage crops and/or land used only as pasture)	230		
Upland field only for feed and forage crops (including pasture / grass)	231		
Land used only as pasture, which has been fertility managed (including prepared and improved grassland)	232		
Upland field without any crops (excluding abandoned upland field)	233		

(The total of 230 to 233 equals "Upland field under management ③".)

4. Total area of cultivated land under management

		(ha)	(a)
Paddy field ① + Land under permanent crops ② + upland field ③			

5. Land used as meadow and pastureland excluding cultivated land

Enter acreage of land of forest and wasteland etc. that has been used as meadow and pastureland during the past year.

		(ha)	(a)
Area of land of forest and wasteland that has been used during the past year.	234		

6. Protected horticulture

Enter the area of greenhouses/glasshouses used for protected horticulture during the past year.

Please note the following when completing this section

- Greenhouses refer to those in which people can work without bending over.
- Excludes those used only for rice nursery or for cultivating mushrooms

Area of greenhouses/ glasshouses	251	(a) (m ²)			

[4] Agricultural machinery

Enter the actual number of machines you have used in the past year (including leased and shared machines) and machines that you now own (including those used by more than one household but stored at your farm).

Please note the following when completing this section

- Do not enter the total number of machines used in the past year, but do enter the net number.

			Used (units)	Owned (units)
Ridden tractor	Less than 15 horsepower	271		
	15 - 30 horsepower	272		
	30 horsepower or more	273		
Powered pest control machines		277		
Ridden air sprayer		278		
Powered rice planting machines		279		
Combine with auto thresher		280		
Combine (normal type)		281		

[5] Agricultural labor force

Enter about persons who worked at the farm management during the past year.

Please note the following when completing this section

- Includes persons employed to perform entrusted farming work from other parties.
- Excludes persons employed in family farms other than farming.
- Here enter not only persons who do agricultural work but also administration-related staffs.
- Calculate days based on 1 day = 8 hours. For example, working half a day for 2 days will count as 1 day.

1. Enter the number of persons who worked for the farm management among the household members and managerial and other employees of the business by number of days and by male/female.

(In the case of a single management in a household, entry is not necessary.)

		Male (persons)	Female (persons)
1 to 29 days	302		
30 to 59 days	303		
60 to 99 days	304		
100 to 149 days	305		
150 to 199 days	306		
200 to 249 days	307		
250 days or more	308		
Total			

2. Concerning employed full-time workers in the farm management (persons employed under a contract of 7 months or longer per year in advance), enter the total number of such persons by gender and the total number of days they worked.

(In case of a full-time worker who is employed by a juridical corporation and belong to a division other than agricultural division do an agricultural work, treat as a part-time worker instead of entering here.)

		Net number of persons (persons)	Total number of days worked (days)
Male	312		
Female	313		

3. Concerning persons temporarily employed as day or seasonal labor for farm management, enter the total number of such persons by gender and the total number of days they worked.

		Net number of persons (persons)	Total number of days worked (days)
Male	322		
Female	323		

4. Concerning persons related mutual help among farm household, labor exchanges or help on farm (including sons/daughters who live outside of the household etc.), enter the total number of such persons by gender and the total number of days they worked.

(Enter only in case of a family-run business.)

		Net number of persons (persons)	Total number of days worked (days)
Male	332		
Female	333		

[6] Agricultural productions

Please note the following when completing this section

- Enter "1" when the cultivated area on field is less than 1 are.
Similarly, enter "1" in case of a indoor area under 1 m².
- In case of part of the crops for sale are used for home consumption, enter the area including share for home consumption.

1. Crops cultivated for sale

Enter the total area of cultivated land for crops for sale during the past year. (Excluding dykes.)

			(ha)		(a)
Rice, wheat, miscellaneous cereals	Paddy field rice	401			
	Upland rice	402			
	Wheat	403			
	Barley, naked barley (including beer barley)	406			
	Other miscellaneous cereals	408			

(For other miscellaneous cereals, enter the total for buckwheat, barnyard millet, and corn. Exclude immature corn (sweetcorn, etc.))

			(ha)		(a)
Potatoes	Potato	409			
	Sweet potato	412			

			(ha)		(a)
Pulses	Soybeans (for beans only)	413			
	()	417			
	Other pulses	418			

(For other pulses, enter the total for azuki beans, peanuts, broad beans (vicia faba), kidney beans, cow-peas, etc.)

			(ha)		(a)
Industrial crops	Tobacco	426			
	Tea (cultivated area)	427			
	()	431			
	Other industrial crops	432			

(For other industrial crops, enter the total for rape seed, mat rush, korjak root, hops, sesame seeds etc.)

			Field (ha)		(a)	Indoor facility (a)			(m ²)
Vegetables	Tomato	433				434

Other citrus	537					538				
Japanese persimmon	539					540				
Chestnut	541					542				
Mume apricots	543					544				
()	549					550				
Other fruit trees	551					552				

(For other fruit trees, enter the total for cherries, plums, figs, Kiwi fruit, etc.)

3. Mushrooms cultivated for sale

Encircle the types of mushrooms that you have cultivated for sale during the past year.

(Be sure to encircle all relevant items.)

	Enoki Mushroom (flamulina velutipes)	Shiitake Mushroom (Lentinus edodes)	Shimeji Mushroom (Lyophyllum decastes)	Hen of the woods (Grifola froviodosa)	Others
561	1	1	1	1	1

4. Livestock etc. raised for sale

Enter the number of head of livestock etc. raised for sale.

(1) Dairy cattle (cattle raised to milk dairy products)

		(heads)			
2 years (24 months) of age or older	572				
Less than 2 years (24 months) of age	573				

(2) Beef cattle

			(heads)			
Beef cattle such as Japanese beef cattle etc.	Breeding cows (including calves to be breeding cows)	576				
	Cattle being fattened (including calves to be fattened)	577				
	Calves to be sold	578				
Crossbred cattle for Japanese beef cattle and dairy cattle	Cattle being fattened (including calves to be fattened)	579				
	Calves to be sold	580				
Dairy cattle being raised for beef	Cattle being fattened (including calves to be fattened)	581				
	Calves to be sold	582				
Total (total of 576 to 582)						

(3) Pigs

			(heads)			
Breeding sows (6 months or older)	584					
Pigs being fattened (including piglets intended for fattening and breeding hogs)	585					

(4) Layers

Enter the number of egg-laying chickens raised to produce eggs for sale (including nestlings).

			10,000	1,000	100	10	(birds)
Number of birds raised	590						

(5) Breeding chickens

Enter the number of chickens used to lay eggs for the purpose of producing chicks for egg laying or for broilers (including cocks).

			10,000	1,000	100	10	(birds)
Number of birds raised (6 months or older)	591						

(6) Broilers

			10,000	1,000	100	10	(birds)
Number of birds shipped during the past year	592						

(7) Hatching and breeding of chickens

Enter the number of chickens hatched and bred.

			10,000	1,000	100	10	(eggs)
Maximum number of eggs that can be placed in your incubators	593						

			10,000	1,000	100	10	(birds)
Number of chickens shipped during the year (excluding newborn chicks)	594						

[7] Sale of agricultural products

1. What is the approximate total value of sales of agricultural products during the past year (total sales)? (Include livestock, sericulture, and cultivated mushrooms.)
(Enter a circle in the corresponding part.)

No sales ☐

Sales ☐

601 (10,000 yen)

2. Ranking of farm product types by sales value and percentage of sales

Enter if farm products have been sold during the past year.

Rank product types by sales value
In a case of equal percentages, give a higher ranking for the crop with a larger land surface area.

What are the sales of these products as a percentage of total sales?
(Example)
Enter 30% as 3 and 100% as 10

		1st	2nd	3rd	(tenths)
Paddy field rice and upland rice	603	1	2	3	
Wheat and barley	604	1	2	3	
Miscellaneous cereals, potatoes, pulses	605	1	2	3	
Industrial crops (tobacco, tea, sugar cane, korjak root, etc.)	606	1	2	3	
Vegetables grown outdoors	607	1	2	3	
Vegetables grown in facilities	608	1	2	3	
Fruits tree (outdoors and facilities)	609	1	2	3	
Flowers and ornamental trees (outdoors and facilities)	610	1	2	3	
Other crops (sod, nursery stock, pasture, cultivated mushrooms, etc.)	611	1	2	3	
Dairy cattle	612	1	2	3	
Beef cattle (including dairy cattle raised for beef)	613	1	2	3	
Hogs	614	1	2	3	
Poultry (including broilers)	615	1	2	3	
Sericulture	616	1	2	3	
Other livestock (including bee raising)	617	1	2	3	

3. Enter all the types of purchasers for the agricultural products that you sold during the past year and the type of purchaser that purchased the largest value of products.

		Agricultural cooperatives	Other collective purchasing bodies	Wholesale market	Retailers	Food manufactures / food service industry	Direct sales to final consumers	Others
Type of purchaser	620	1	1	1	1	1	1	1
Type of purchaser buying largest amount	621	1	2	3	4	5	6	7

(Encircle all types of purchasers that purchased your products.)
(For the type of purchaser buying the largest amount, be sure to encircle one item.)

[8] Agricultural work entrusting to other Entities

Enter information on the paddy rice work entrusted to other entities during the past year.

Please note the following when completing this section

- Entrusting of agricultural management is categorized the renting-out of land, and is not included here.
- All work of paddy rice refers to raising seedlings, plowing and soil puddling, rice planting, pest control, harvesting and threshing, and drying and processing.

(Encircle all works that entrusted to other entities.)

	Entrusted all work	Entrusted work by task					
		Raising seedlings	Plowing and puddling	Rice planting	Pest control	Mowing and threshing	Drying and preparation
701	1	1	1	1	1	1	1

[9] Accepting entrusted agricultural work

Enter the number of households from which and the land area for which you have received entrusted work during the past year.

Please note the following when completing this section

- Accepting entrusted agricultural management is categorized the renting-in of land, and is not included here.
- All work of paddy rice refers to raising seedlings, plowing and puddling, rice planting, pest control, mowing and threshing, and drying and preparation.

1. Paddy field rice cultivation

		Number of households		Area worked (ha)		(a)
Acceptance of all work	711			712		
Acceptance of part of the work	Raising seedlings	713		714		
	Plowing and puddling	715		716		
	Rice planting	717		718		
	Pest control	719		720		
	Mowing and threshing	721		722		
	Drying and preparation	723		724		

2. Other

		Number of households		Area worked (ha)		(a)
Wheat and barley	739			740		
Soybean	741			742		
Vegetables	743			744		
Fruit tree	745			746		
Feed and forage crops	747			748		
Industrial crops	749			750		
Other crops	753			754		
Livestock	755					
Of this, dairy farming helper work	756					

Only temporary meadows are requested to enter following.

Please note the following when completing this section

- A temporary meadow is an agricultural management entities aiming to cultivate pasture grass in order to raise livestock on a consigned basis or to cultivate pasture grass cooperatively in order to harvest it or use it for joint pasturing.

3. Enter the number of households and heads of livestock for which you have been accepting entrusted work. (Only stock forms to be deposited from other parties are requested to enter following.)

		Households		Head of livestock
Dairy cattle	757		758	
Beef cattle	759		760	

4. Enter the number of participating households (only in the case of joint use of harvested meadow grass or pasturing.)

	Households
761	

5. Enter information on the geographical area in which the accepting entrusted work is being carried out.

(Be sure to encircle one item.)

		Within rural community	Within former municipality districts	Within current municipality districts	Within prefecture (within branch district in Hokkaido)	Outside prefecture (outside branch district in Hokkaido)
Major extent	762	1	2	3	4	5
Remotest extent	763	1	2	3	4	5

6. Enter the income received for accepting entrusted agricultural work during the past year.

(Enter a circle in the corresponding part.)

No income received

[10] Items set-up by a prefecture

	801					
	802					
	803					
	804					
	805					

People who do not perform forestry work please stop here.
Thank you for your cooperation.

Please enter following if you perform forestry work.

[11] Forestry

1. Enter the area of belonging forest and of owned forest.

		(ha)	(a)
Belonging forests	902		
Of this, forest land rented to other parties (including areas where you share profits from your own land with other parties)	903		
Forest land rented from other parties (including areas where you share profit from other parties land with other parties)	904		
Owned forests (902-903+904)			
Of this, forest land you outsource management of to other parties	905		

2. Enter the percentage of owned forest at each location.

	Inside the prefecture where you live	Outside the prefecture where you live
	within municipality districts	Outside municipality districts
	(tenths)	(tenths)
906		

3. Enter the area of artificial forest that is part of owned forest.

		(ha)	(a)
Less than 10 years old (including land where the artificial forest has been logged)	908		
11 to 30 years old	909		
31 to 40 years old	910		
41 years or older	911		
Total artificial forests (908 + 909 + 910 + 911)			

4. Enter the forestry work performed in the owned forest.

Please note the following when completing this section

- For forestry work, include work performed on an employment or entrusted basis.
- Weeding etc. includes weeding, pruning vines cutting, clearing cutting, work for protection from snowfalls, and other maintenance work.

(1) Enter forestry work performed during the past five years in owned forest.

(Be sure to encircle all relevant items.)

	Afforestation	Weeding, etc.	Thinning	Regeneration cutting
912	1	1	1	1

(2) Enter the land area where you did forestry work during the past year in owned forest.

		Net acreage of forestry work in owned forest	(ha)	(a)
Afforestation	913			
Weeding etc.	914			
Thinning	915			
Regeneration cutting	916			

[12] Forestry labor force

1. Enter about all persons who worked in your forestry management during the past year.

(In the case of single management in a household, entry is not necessary.)

		Male (persons)	Female (persons)
1 to 29 days	922		
30 to 59 days	923		
60 to 99 days	924		
100 to 149 days	925		
150 to 199 days	926		
200 to 249 days	927		
250 days or more	928		
Total			

2. Enter the total number of days worked on the log production of logs (including production of logs by purchasing standing trees) among accepting entrusted forestry work during the past year.

	(days)
929	

[13] Production of logs

Enter the volume of log production during the past year.

1. Enter the volume of log production cut by yourself in owned forest.

		(m ³)
Production of logs	931	

2. Enter the volume of log production through accepting entrusted work or purchasing standing trees. (Total the volume of utilization through regeneration cutting (by contract), buying stumpage, and tree thinning.)

		(m ³)
Production of logs	932	
Of this, production by buying stumpage.	933	

[16] Accepting entrusted forestry work

Enter the accepting entrusted forestry work during the past year.

Please note the following when completing this section

- Tenths of accepting entrusted work by organization type excludes re-entrusted work. National and local public bodies include public corporations etc.
- "Absent town" means that the location of the forest where you are accepting entrusted forestry work and the address of the client (forest owner) are not in the same city, town, or village.

1. Enter the consigned area of forest land and the percentage of this area by outsourcing organization.

		Area of accepting entrusted work (ha)				Tenths of re-entrusted work (tenths)		Tenths by organization accepting entrusted work							
								From the forest owner				From entities other than the forest owners			
								Individual	National and public bodies	Other		Of this, absent town	Of this, absent town	Of this, absent town	Of this, absent town
								(tenths)	(tenths)	(tenths)	(tenths)	(tenths)	(tenths)	(tenths)	(tenths)
Afforestation	961														
Weeding etc.	963														
Thinning	965														
Regeneration cutting	967														
Accepting entrusted work	967														
Buying stumpage	969														

[14] Sale of forestry products

1. Select the items that correspond to sales of forestry products during the past year.

Please note the following when completing this section

- Special forestry products refers to firewood, charcoal, bamboo shoots and edible wild plants harvested in the forest, but it does not include cultivated mushrooms and nursery stock for forest.
- Sales of logs which is produced through buying stumpage from other parties is excluded.

(Be sure to encircle all relevant items.)

		Wooden materials		Bed log for growing mushrooms	Special forest products
		As stumpage	As logs		
941		1	1	1	1

2. What is the approximate total value of sales of forestry products during the past year?

(Enter a circle in the corresponding part.)

No sales	
Sales	
942	

[15] Forestry work entrusting to other

Entities

Enter the percentage of each type of forestry work in owned forest which has been entrusted to other entities during the past year.

Please note the following when completing this section

- Weeding etc. includes weeding, pruning, vines cutting, cleaning cutting, work for protection from snowfalls, and other maintenance work.

	Afforestation (tenths)	Weeding etc. (tenths)	Thinning (tenths)	Regeneration cutting (tenths)
951				

2. Enter the volume of log production through accepting entrusted work or purchasing standing trees. (Total the volume of utilization through regeneration cutting (by contract), buying stumpage, and tree thinning.)

(Be sure to encircle one item.)

		Within rural community	Within former municipality districts	Within current municipality districts	Within prefecture (within branch district in Hokkaido)	Outside prefecture (outside branch district in Hokkaido)
Major extent	971	1	2	3	4	5
Remotest extent	972	1	2	3	4	5

3. Enter the income received for accepted entrusted forestry work.

- (1) Enter the income received through accepting entrusted forestry work (including production of logs by buying stumpage) during the past year.

(Income received for production of logs by buying stumpage is the difference between the value of sales of the logs and the cost of buying stumpage.)

(Enter a circle in the corresponding part.)

No income received ☐

Income received ☐

973 (10,000yen)

- (2) Enter the tenth of income from the following types of accepting entrusted forestry work.

	Accepting entrusted work on forestation and tending (tenths)	Accepting entrusted work on log production (tenths)	Log production (buying stumpage) (tenths)
974			

4. Enter the first and second highest work income during the past year only in cases where you carried out the accepting entrusted forestry work (including producing logs by buying stumpage).

(Be sure to encircle one item.)

		Forestry	Sawmilling and making wood products	Wood and bamboo wholesale business	Agriculture	Gardening work	Civil engineering work	Other work
First	975	1	2	3	4	5	6	7
Second	976	1	2	3	4	5	6	7

[17] Items concerning other forestry work

Only respondents who answered "Company" on the cover page are requested to complete this section.

1. Enter the type of work for which you earned the highest income in the past year, only if you own a forest.

(Be sure to encircle one item.)

	Forestry	Building construction	Sawmilling and making wood products (excluding furniture)	Manufacturing pulp, paper, and processed paper products	Other work
981	1	2	3	4	5

Only respondents that answered "Family Managed" on the cover page are requested to complete this section.

2. Enter the type of work for which your household earned the highest income in the past year, only if you own a forest.

(Be sure to encircle one item.)

	Employed			Self-employed		Other
	In regular job	Migrant worker	A day worker and temporary worker	Forestry	Other than forestry	
982	1	2	3	4	5	6
