# Foreword From the ASEAN Secretariat

**Dr. Pham Quang Minh, PhD.**

Assistant Director, Sectoral  
Development Directorate  
Head of Food, Agriculture  
and Forestry Division and  
Tourism Unit  
ASEAN Economic  
Community Department

It is with great pleasure that I introduce the launch of the ASEAN HRD Project completion report. This report marks a significant milestone in our journey towards fostering friendship and cooperation between Japan and the ASEAN region, specifically in the field of human resources development in food-related areas.

The Project for Human-Resources Development in Food-related Areas through Partnership with Universities in ASEAN Region (HRD Project) has been instrumental in nurturing and empowering the young generation in the ASEAN region, equipping them with the necessary knowledge and skills to excel in the dynamic and ever-evolving food and agriculture sector. Through the partnership program with universities in the ASEAN region, this project has successfully facilitated knowledge and technology transfer, paving the way for a stronger and more resilient regional value chain.

The completion report serves as a comprehensive account of the progress and achievements made throughout the various phases of the HRD Project, from its inception in September 2014 to the culmination of Phase 3 in December 2023. It highlights the impactful activities, successful collaborations, and the tremendous efforts put forth by all stakeholders involved.

I am confident that this report will not only serve as a valuable resource for sharing information and disseminating best practices but also inspire further cooperation and innovation in the ASEAN-Japan partnership. By promoting the development and harmonization of the Food Value Chain, we are actively contributing to the broader goals of sustainable agriculture and a sustainable food system.

I would like to express my deepest gratitude to all the individuals, organizations, and institutions that have contributed to the success of the ASEAN HRD Project. Your unwavering dedication, commitment, and passion have made a lasting impact on the lives of countless individuals and have laid the foundation for a brighter future in the ASEAN region.

As we embark on Phase 4 of the project, I am filled with optimism and excitement for the opportunities that lie ahead. Together, let us continue to prioritize the critical issues in the Food and Agriculture sector and work towards attaining sustainable agriculture and a resilient food system.

I invite you to delve into this completion report, to celebrate the achievements, and to join us in shaping a prosperous and sustainable future for ASEAN.

# Preface

ASEAN has achieved a certain level of economic progress, particularly in the food and agricultural sectors. However, there is still a significant disparity in industrial development among ASEAN Member States (AMSs), and their varying management systems pose substantial obstacles to regional harmonization. Bridging these development gaps and addressing systemic differences is crucial for economic advancement and bolstering the region's global competitiveness. Identifying practical measures, such as transferring knowledge and technology and harmonizing food and agricultural standards, is crucial to tackling these challenges.

To address these issues and enhance the value of commodities and services across the Food Value Chain (FVC), the ASEAN–Japan Project for Human Resources Development in Food-related Areas through Partnership with Universities in the ASEAN Region was established in October 2014, commemorating the 40<sup>th</sup> Year of ASEAN–Japan Friendship Cooperation. Funded by the Ministry of Agriculture, Forestry, and Fisheries (MAFF) of Japan and executed under ASEAN Secretariat cooperation, the Project aims to directly contribute to human resources development in ASEAN by providing enhanced knowledge and skills necessary for the comprehensive development of the food-related industry. Additionally, it seeks to promote cooperation along the Food Value Chain (FVC) from farmers to consumers through collaboration between the academia with public and private sectors.

The Project began with its first partnership program at Kasetsart University in Thailand in January 2015. It expanded its reach to other ASEAN member countries throughout Phase 1 up to Phase 3, which concluded in December 2023. The programs under the Project primarily target young generations in AMSs, aiming to empower them to contribute to the future strengthening of the FVC in the ASEAN–Japan region and regional harmonization in related fields through their acquired expertise.

Over the years, the Project has evolved to cover additional components such as Food Analysis and Food Safety Management. As a result, it has benefited not only young generations but also a broader range of stakeholders, such as government officials, experts from food-related companies, agricultural cooperatives, agricultural community enterprises, farmer organizations, and testing laboratories in need of new knowledge, practical know-how, and skills.

A summary of the Project's output from Phase 1 to Phase 3 is shown in the figure 1.

Internship Program with Royal University of Agriculture in 2020

Period	Activity	Number of Programs	Number of Participants	Number of Invited Experts
Phase 1	Food Value Chain Training Course, Japan Factory Visit	23	1,307	279
Phase 2	Food Value Chain Training Course, Food Analysis Training Course, Food Safety Management Training Course, Japan Field Study Program, Internship Program	32	3,280	322
Phase 3	Food Value Chain Training Course, Food Analysis Training Course, Food Safety Management Training Course, Japan Field Study Program, Internship Program	58	4,442	420
<b>Total</b>		<b>113</b>	<b>9,029</b>	<b>1,021</b>

Fig.1 Summary of Project's output from Phase 1 to Phase 3

# **PHASE 1**

**(1 October 2014 – 31 December 2017)**

# HRD Project Phase 1 At A Glance

The Project focused on establishing partnership programs on food-related areas at universities in ASEAN Member States (AMSs), accommodating contributions from Japanese experts as guest lecturers from the private sector, and strengthening partnerships and creating networks at various levels, including public-private, academic-industrial, and among different players in the industry along the food value chain. The HRD Project Phase 1 has successfully built a fundamental partnership and network, mainly among Japanese experts on FVC and universities in AMSs, and has promoted research and education in the food and agricultural sector field, providing leading education to the young generation of ASEAN Member States.

The first phase of the HRD Project was implemented for 3 years, commencing on 1 October 2014, and its first phase was completed on 31 December 2017. The HRD Project Phase 1 activities include Advisory Committee Meetings (ACM), training courses, and the provision of lecturers from Japanese experts through partnership programs with universities in the ASEAN region. During 2015 – 2017, the Project implemented partnerships with 10 universities from all AMSs with various activities conducted. In this phase, the Project implemented more than 20 programs in all 10 ASEAN countries, invited various FVC experts from more than 50 companies, and benefited more than 1,300 AMS students.

The program summary is shown below in Figure 2:

No	Period	Number of Programs	Number of Participants	Number of Invited Experts
1	PY 2014	4 Program	229	50
2	PY 2015	5 Program	402	60
3	PY 2016	14 Program	676	169
<b>Total</b>		<b>23 Program</b>	<b>1,307</b>	<b>279</b>

Fig. 2 Program summary of Phase 1

A detailed summary of activity for each Program Year, including program date, venue, participants, and experts' details, can be seen in [Annex 1](#).

# **Activities Of HRD Project Phase 1**

# Food Value Chain Training Course

The class offers and provides lectures from Japanese experts through the Partnership Program, chiefly targeted at university students. Therefore, some Japanese public and private company experts have been invited to deliver lectures on the Food Value Chain (FVC) and share their practical know-how from their experience in the field. The lectures covered various topics such as Food Culture, Food Logistics, Food Industry, Agriculture and Technology, and even Marketing and Finance for agricultural products.

The expected outcomes from this partnership program are to increase the knowledge and skill of students enrolled in this program, to enhance the capacity of Partner University to develop human resources in FVC and to create an effective network between ASEAN Universities and the private sector. The curriculum was arranged comprehensively in the scope of FVC, based on communication between Partner University, ASEAN Secretariat, and MAFF Japan.

The summary of Implementing Partner Universities is shown below in Figure 3:

Country	Implementing Partner Universities
Brunei Darussalam	Universiti Brunei Darussalam (UBD)
Cambodia	Royal University of Agriculture (RUA)
Indonesia	SB – IPB University (SB-IPB)
Lao PDR	National University of Laos (NUL)
Malaysia	Universiti Putra Malaysia (UPM)
Myanmar	Yezin Agricultural University (YAU)
Philippines	Visayas State University (VSU)
Singapore	National University of Singapore (NUS)
Thailand	Kasetsart University (KU)
Vietnam	Vietnam National University of Agriculture (VNUA)

Fig. 3 List of implementing partner universities of FVC in Phase 1

# Japan Factory Visit

The Project participated in the Japan-ASEAN Integration Fund (JAIF) Factory Visit Tour organized by Japan's ASEAN Food Industries Human Resources Development Association (AFH). AFH was established in 2014 as a private sector partner sharing the purpose of the HRD Project. This Factory Visit program was intended to advance food value chain development and human resources development in ASEAN and focused primarily on Human Resource Development.

## Japan Factory Visit Tour (3 – 9 July 2016 and 4 – 10 September 2016, in Japan)

Participants from all AMSs attended the Factory Visit Tour program. Each country had 5 participants, consisting of 3 students, 1 professor from partner universities, and 1 government official from the Ministry of Agriculture. The program was conducted twice in 2016. The 1<sup>st</sup> batch of the program was conducted on 3 - 9 July 2016, attended by group representatives from Vietnam, Lao PDR, Cambodia, Singapore, and Thailand.

The 2<sup>nd</sup> batch of the program was conducted on 4 - 10 September 2016 and was attended by group representatives from Indonesia, Malaysia, Brunei Darussalam, Philippines, and Myanmar. The collaborating companies and the topics shared in this Program are shown in the table below:

No	Company Name	Topic
1	Fuji Oil	Technology, Research and Development
2	TAKII Seed	Quality control and quality test method for fruits and vegetables
3	Gekkei-Kan, Tsuki no Katsura	Sake manufacturing/ processing; Introduction to fermentation technology on Japanese food culture (1 <sup>st</sup> batch)
4	Takeoka Shoyu Factory	Shoyu manufacturing/processing; Introduction to fermentation technology on Japanese food culture (2 <sup>nd</sup> batch)
5	Yoshinoya	How to manage the quality of food production and maintain efficiency, especially in the food services area
6	Pasona	Capacity-building mechanism for the farmers, especially on value-added topics
7	Ajinomoto	Food processing and technology on making the powder to enhance the umami taste of the food
8	Ota Market	Introduction to auction system in Japan's fruit, vegetable, and flower market
9	Megmilk Snow Brand	Packaging process and hygiene management method on the dairy products (1 <sup>st</sup> batch)
10	Kokubu	Distribution system and technology, especially for food products

# Meetings Under The Project

## Advisory Committee Meeting (25 – 26 October 2017, in Bali - Indonesia)

The Advisory Committee Meeting (ACM) was held at the end of the 3<sup>rd</sup> Project Year of Phase 1, after completing 3 years of program implementation. The next ACMs were conducted at the end of each Project Year to discuss and decide all upcoming activities for the following Project Year of HRD Project Phase 2.

Therefore, the first ACM was held on 25 – 26 October 2017 in Bali - Indonesia, hosted by the Ministry of Cooperative and Small Medium Enterprises of the Republic of Indonesia. The meeting's objective was to share the progress of the Project for the past three years and obtain the necessary evaluation from stakeholders, i.e., MAFF Japan, Partner Universities, and Japanese companies. Representatives from MAFF Japan, Partner Companies, and 9 Partner Universities attended the meeting. The delegation from Singapore could not attend the meeting due to travel advice related to the status of Mount Agung Eruption in Bali. However, they supported the project and gave input through the questionnaire.

The Meeting also decided on the annual work plan for Project Phase 2, Project Year 2018.

Advisory Committee Meeting 2017

# **PHASE 2**

**(1 January 2018 – 31 December 2020)**

# HRD Project Phase 2 At A Glance

The second phase represents a continuation of HRD Project Phase 1, prompted by a highly positive response from member states, particularly partner universities, towards the Project's implemented activities. The Project yielded favorable outcomes for all partner universities, leading to widespread requests for its extension. Phase 2 of the HRD Project spanned another 3 years, commencing on 1 January 2018 and concluding on 31 December 2020.

In response to numerous requests from member states to expand the reach of the Project's benefits, extending beyond university entities to include government officials and various agriculture-related communities such as agricultural cooperatives, enterprises, and testing laboratories, the Project broadened its activities to accommodate these requests by providing more specialized human resource development programs on food management science through two new specific components, i.e., Food Analysis and Food Safety Management.

These two components enrich the Food Value Chain and are a significant topic for the Project. Hence, to broaden the beneficiaries, the Project started to reach various target participants, not only advanced students but also food industry entities, including government officials, researchers, and company staff.

From 2018 to 2020, the Project conducted training courses in Food Value Chain (FVC), Food Safety Management (FSM), and Food Analysis (FA) with 10 partner universities across all ASEAN Member States (AMSs). However, in early 2020, the global outbreak of the COVID-19 pandemic significantly disrupted the planning and implementation of the Project Year 2020. Numerous adjustments were necessary, and most activities had to be postponed until the situation improved. Fortunately, with the availability of online platforms, the Project transitioned all programs to virtual formats, deciding to refrain from any international movement for project-related activities.

In this phase, the Project implemented 32 FVC, FSM, and FA programs, invited experts from 71 companies, and benefited up to 3,280 AMS participants.

No	Period	Number of Programs	Number of Participants	Number of Invited Experts
1	PY 2018	9 Program	681	124
2	PY 2019	15 Program	1,182	148
3	PY 2020	8 Program (5 online programs)	1,417	50
<b>TOTAL</b>		<b>32 Program</b>	<b>3,280</b>	<b>322</b>

Fig. 5 Program summary of Phase 2

The detailed activity summary for each Program Year, including program date, venue, participants, and experts' details, can be seen in [Annex 2](#).

# **Activities Of HRD Project Phase 2**

# Food Value Chain Training Course

Food Value Chain Training Course is still the main activity in Phase 2. The expected outcomes, targets, framework of the program, and partner universities remain the same, continuing from the previous Phase. Considering efficient and speedy arrangements in finding, requesting, and managing Japanese companies, experts, and lecturers, the Project entrusted FVC training course arrangements to Japan Food Journal Co., Ltd. as a consultant since the beginning of Phase 2.

Between 2018 and 2020, 238 lecturers from 60 companies shared their knowledge and experience in the Food Value Chain with 2,592 students from all universities across ASEAN Member States, except Singapore. The curriculum was arranged comprehensively in the scope of FVC, based on communication between partner universities, the ASEAN Secretariat, and MAFF Japan. The lectures covered various topics such as Food Culture, Agriculture & IT, Animal Husbandry, Agriculture Cooperatives, Functional Food, Finance, Marketing, and even Entrepreneurship

Since Phase 2, recognizing the excellent achievement and effectiveness of the Project, some partner universities in which the course is integrated into the university's curriculum have given credit to students who enrolled in the course.

A summary of the number of credits given is shown in the Figure 6.

Implementing Partner University	Number of Credits Given		
	2018	2019	2020
SB – IPB University (Indonesia)	30	32	62
Universiti Putra Malaysia (Malaysia)	-	80	-
Kasetsart University (Thailand)	12	13	16
<b>TOTAL</b>	<b>42</b>	<b>125</b>	<b>78</b>

Fig. 6 Number of credits given for FVC training course in Phase 2

Additionally, Ms. Melody Nurramdhani Laksani, the Japan–ASEAN Goodwill Ambassador for Food and Agriculture, spoke in several programs, offering her concluding remarks and sharing her experiences as the ambassador of Food and Agriculture.

## Food Analysis Training Course

A new component of Phase 2 is the Food Analysis Training Course. Established in PY 2018, this activity focuses more on food analysis methods to promote mutual understanding of testing methods for practical components for standards development nationally and globally. The expected trainees for this activity include partner universities, governmental organizations, food-related companies, testing laboratories, and many more.

Between 2018 and 2020, the Project invited numerous Japanese and local experts to share their knowledge of food analysis, covering topics

such as Basic High-Performance Liquid Chromatography (HPLC), Introduction to Analytical Equipment, Basic Understanding of Japan Agricultural Standards, practical training on spinach pre-treatment, and many more.

However, due to the ongoing worldwide pandemic of COVID-19, the program arrangement was slightly adjusted. The Project's usual practice was to hold a program inviting participants to the Food Analysis Training Course venue. However, looking at the current situation, which required social distancing and forbade groups of people from gathering, the Project conducted ad-hoc training, aiming for 20 limited onsite participants to acquire basic skills and build infrastructure for future food analysis capacity improvement.

**FA Training Course Phase 2**  
Food Analysis Training Course in Partnership  
with Vietnam National University of Agriculture in 2019

Country	Implementing Partner Universities
Cambodia	Royal University of Agriculture (RUA)
Indonesia	IPB University (IPB)
Malaysia	Universiti Putra Malaysia (UPM)
Singapore	National University of Singapore (NUS)
Thailand	Kasetsart University (KU)
Vietnam	Vietnam National University of Agriculture (VNUA)

Fig. 7 A list of implementing partner universities for FA training course in Phase 2

The curriculum for ad-hoc training was formulated based on consultation between MAFF Japan, partner universities, and the Project, which consisted of topics on the Japan Agricultural Standard System and an introduction to HPLC for food analysis, including installation, operation, and maintenance. HPLC was introduced in collaboration with Shimadzu Corporation and its subsidiaries and distributors in each participating country, namely Cambodia, Malaysia, and Indonesia.

In summary, 43 lecturers from 15 companies and entities have shared their knowledge and experience in Food Analysis with 506 trainees across 6 ASEAN Member States. A list of the implementing partner universities throughout Phase 2 is shown in Figure 7.

## Food Safety Management Training Course

Another new component of Phase 2 is the Food Safety Management Training Course. Carried out for the first time in PY 2019, the objectives of this activity are to deepen the understanding of Hazard Analysis Critical Control Point (HACCP) and to gain audit skills to ensure food safety among AMSs. Moreover,

this training course introduces the Japan Food Safety Standard (JFS), including HACCP, Good Manufacturing Process (GMP), and Food Safety Management System. The expected participants of this activity include existing partner universities, government officials, food-related companies, and many more.

Between 2018 and 2020, the Project invited Japanese and local experts to share their knowledge of Food Safety Management, covering topics specifically on JFSM, GMP, Hazard Analysis, and steps of HACCP. A total of 10 lecturers from 6 universities have shared their knowledge and experience in Food Safety Management with 137 participants in 2 ASEAN Member States.

A list of the implementing partner universities throughout Phase 2 is shown in Figure 8.

**FSM Training Course Phase 2**  
Food Safety Management Training Course in Partnership  
with Kasetsart University in 2019

Country	Implementing Partner Universities
Thailand	Kasetsart University (KU)
Vietnam	Vietnam National University of Agriculture (VNUA)

Fig. 8 A list of implementing partner universities for FSM training course in Phase 2

## Japan Field Study And Internship Program

The Japan Field Study and Internship Program is part of program enrichment to complement and materialize the lessons taught through lecture programs provided for partner universities in AMSs. However, due to several considerations, including cost, these activities were divided into 3 terms of implementation every year.

### 1.1 Japan Field Study Batch 1 (1 - 7 October 2018, in Japan)

The Project invited 3 Member States for the 1<sup>st</sup> batch, which was conducted from 1 to 7 October 2018. Co-hosted by Vietnam and joined by Singapore and Thailand, the program was supposed to be attended by 18 participants with a mix of 4 students, 1 professor, and 1 government official from each participating country. A total of 17 participants from 3 countries participated in the 1<sup>st</sup> batch of this field study program (due to another essential duty assigned, the government official representative from Vietnam canceled his attendance at the program).

**Japan Field Study Batch 1 2019**

Japanese Agricultural System, JA Sano

Agricultural Experience, Yoshinoya Farm Fukushima

The participants visited several Japanese companies and were given lectures by 10 experts on various topics related to FVC in the Japanese food industry, as well as given first-hand experience to observe the implementation of FVC onsite. The list of visited companies is shown in the Figure 9.

No.	Company	Field of Expertise
1	Pasona Inc.	Human Resource Development
2	Japan Agricultural Cooperative	Agriculture Cooperatives
3	Yoshinoya Holdings	Food Industry
4	EAT & Co.	Restaurant Service
5	Yamato Logistic Group	Logistics

Fig. 9 List of visited companies during the Japan Field Study Batch 1

## 1.2 Japan Field Study Batch 2 (30 September – 6 October 2019, in Japan)

The 2<sup>nd</sup> batch of Japan Field Study for AMSs was successfully organized from 30 September to 6 October 2019 in Japan (Tokyo, Gunma, Fukushima, Kanagawa, and Chiba Area). Initially, the Project invited 20 participants from Brunei Darussalam, Indonesia, Malaysia, and the Philippines, consisting of 1 government official, 3 students, and 1 lecturer from each partner university. However, since the Government of the Philippines did not send their officer to join the program, the Project added 1 more student to the Philippines' delegation. Moreover, the government official from Indonesia also canceled his attendance due to personal matters. In conclusion, 19 participants from 4 AMSs attended the field study program.

No.	Company	Field of Expertise
1	Pasona Inc.	Human Resource Development
2	JA Zenchu Oratatebayashi Branch	Delivery Management
3	Yoshinoya Holdings (Farm)	Agriculture & Food Industry
4	Atsugi Logistics Center of Yamato	Logistics
5	Ezaki Glico Co., Ltd	Marketing
6	Megmilk Snow Brand Co., Ltd.	Food Processing/Manufacturing

Fig. 10 List of visited companies during the Japan Field Study Batch 2

Six Japanese companies were visited to provide the participants with a comprehensive knowledge of Japan's cutting-edge technology and management of FVC, including the development of human resources, production/manufacturing process, marketing, and delivery management so that the consumers can receive the product well. The list of visited companies is shown in the Figure 10.

### Japan Field Study Batch 2 2019

Farm Visit, Yoshinoya Farm

Factory Visit, Megmilk Snow Brand Co., Ltd.

## 2.1 Internship Program under Partnership Program with Kasetsart University (17 - 28 January 2019, in Japan)

The 1<sup>st</sup> Internship Program to Japanese Food & Agriculture Industries for AMS students funded by the HRD Project was held under the Partnership Program with Kasetsart University (KU). The internship started on 17 and ended on 28 January 2019. This activity was a collaboration with Yoshinoya Holdings Co., Ltd., aiming to give the students a comprehensive understanding of Yoshinoya's implementation of the Food Value Chain, especially the practical knowledge of their chain from farm to table.

Yoshinoya and KU selected 4 students and 1 lecturer from KU to join the program. These selected participants were then allowed to visit Yoshinoya's sites in Japan, including their farm in Fukushima, a vegetable and meat factory in Saitama, and Yoshinoya restaurants around the Tokyo area.

## 2.2 Internship Program under Partnership Program with Royal University of Agriculture (5 - 13 February 2020, in Japan)

The 2<sup>nd</sup> Internship Program 2020 was successfully organized from 5 to 13 February 2020 in Japan (Tokyo, Saitama, and Fukushima). The Project invited 4 students from the Royal University of Agriculture - Cambodia, including two final-year students and two 3<sup>rd</sup> year students.

These selected participants were then allowed to visit Yoshinoya's sites in Japan, including their farm in Fukushima, a vegetable and meat factory in Saitama, and Yoshinoya restaurants around the Tokyo area. The students were eager to learn about the Japanese food service industry and food value chain through the Yoshinoya Holdings Co., Ltd internship program. They gave their utmost effort to make the final presentation. Each student elaborated on their experience and lessons learned during the program to develop an action plan framework they would apply in their home country.

### Internship with RUA 2020

Farming Experience, Yoshinoya Farm

Orientation at Yoshinoya Farm

## Meetings Under The Project

### 1. Coordination Meeting between the Project and MAFF Japan (4 October 2018, in Tokyo - Japan)

The Project and MAFF Japan coordination meeting was held in the MAFF Japan Office in Tokyo, Japan, on 4 October 2018. The Project Coordinator reported the progress of the Project to the related stakeholders in MAFF Japan. The meeting also discussed the progress of project expansion.

As a result, two additional components, namely the Food Analysis Training Course and Food Safety Management Training Course, have been added to be managed by the Project starting from the second year of Phase 2. This expansion broadens its beneficiaries to university academics, government officials, private and public food-related companies, Agriculture Cooperatives, Agriculture Community Enterprises, Farmer Organizations, and testing laboratories.

The project expansion has been approved by related working groups (ASWGAC and AWGATE) and SOM-AMAF on 24 October 2018.

## 2. Japan Expert Meeting (21 – 22 November 2019, in Tokyo – Japan)

The coordination meeting was carried out on 21 and 22 November 2019. Experts from Japanese companies who participated in the Partnership Programs under the Project were invited. The Project Coordinator shared the progress of the Project throughout the Project Year 2019 and noted the evaluation for improvement of the following program implementation.

Japan Expert Meeting 2019

## 3. Advisory Committee Meeting (3 December 2019, in Kuala Lumpur – Malaysia)

An Advisory Committee Meeting was held on 3 December 2019 in Kuala Lumpur, Malaysia, between stakeholders, including AMSs representatives from government and partner universities, MAFF Japan, the Project Team, and the ASEAN Secretariat. The meeting objectives were for the Project and university partners to share the result of program implementation in PY 2019 and their concerns and requests for next year's plan.

## Other ASEAN Meetings

Besides the thematic conference, the Project also proactively participated in the related ASEAN meeting to report the progress of the Project, get input from related ASEAN stakeholders for improvement, and better accommodate the needs of all AMSs. The Project Coordinator attended the meetings as a representative of the Project.

No.	Meeting	Date and Venue	Note (Meeting Result)
1	The 20 <sup>th</sup> ASWGAC Meeting	23 – 27 July 2018, in Langkawi Island – Malaysia	The AMSs take note of the report on the progress of the Project
2	The 17 <sup>th</sup> Meeting of Special SOM AMAF +3 Meeting	29 August 2018, in Pattaya - Thailand	The AMSs take note of the report on the progress of the Project
3	The 21 <sup>st</sup> ASWGAC Meeting	21 – 24 May 2019, in Nay Pyi Taw – Myanmar	The AMSs take note of the report on the progress of the Project
4	The 18 <sup>th</sup> Special SOM AMAF +3 Meeting	7 August 2019, in Hue – Vietnam	The AMSs take note of the report on the progress of the Project
5	The 26 <sup>th</sup> AWGATE Meeting	1 – 3 July 2019, Bandar Seri Begawan – Brunei Darussalam	The AMSs take note of the report on the progress of the Project

Fig. 11 Matrix of other ASEAN meetings in Phase 2

# **PHASE 3**

**(1 January 2021 – 31 December 2023)**

# HRD Project Phase 3 At A Glance

Following the success of Phases 1 and 2, the HRD Project Phase 3 began on 1 January 2021 and concluded on 31 December 2023. The Project continued to contribute to the human resources development of the young generation by implementing three components of the Food Value Chain, Food Analysis, and Food Safety Management Training Courses across 10 ASEAN Member States throughout the three Project Years. The re-establishment of focal points of Food Safety Management and Food Analysis was successful soon after Phase 3 started.

Despite the persistent challenges posed by the ongoing pandemic in Project Years 2021 and 2022, the Project adeptly adapted by utilizing online platforms like Zoom for program implementation. Programs were conducted entirely virtually or in a hybrid format, where participants convened at universities while lecturers presented remotely from Japan.

With the lift of the travel ban in early 2023 and the resumption of international movement, the Project shifted towards onsite implementation for most programs in Project Year 2023, as per the requests of universities and implementing agencies. Besides training courses, the Project extended invitations to participants from various member states for the Internship and Japan Field Study programs.

During this phase, the Project successfully organized 57 programs featuring contributions from experts affiliated with more than 76 companies. These efforts benefited a diverse group of over 4,300 participants from the ASEAN Member States, including students, university staff, government officials, members of farmers' organizations, Small-Medium Enterprises (SMEs), and private companies' personnel.

The summary is as shown in the figure 12.

No	Period	Number of Programs	Number of Participants	Number of Invited Experts
1	PY 2021	11 Program	1,505	81
2	PY 2022	22 Program	1,463	145
3	PY 2023	25 Program	1,474	194

Fig. 12 Program summary of Phase 3

# **Activities Of HRD Project Phase 3**

# Food Value Chain Training Course

In continuation of the previous phase, Food Value Chain Training Course is implemented in Phase 3, maintaining the expected outcomes, beneficiaries, framework of the program, and partner universities. With the same arrangement as Phase 2, the Project continued to entrust the FVC training course arrangements to Japan Food Journal Co., Ltd. as a consultant.

Responding to the global pandemic, the Project quickly introduced online lectures for the programs between 2021 and 2022. The Project also produced several virtual field study videos presented during the lecture to substitute for the field study program in Japan. The videos allow students to experience and visit the farm and factory virtually. The contents include topics such as an introduction to Japan's agricultural cooperatives activities and an introduction to Japan's agricultural effort to create an economical and sustainable food value chain. The training course curriculum was arranged comprehensively in the scope of FVC, based on communication between partner universities, the ASEAN Secretariat, and MAFF Japan. More than 200 lecturers have been involved and shared their knowledge and experience in the Food Value Chain with more than 2,600 students from all universities across ASEAN Member States, except Singapore. The participants' list is shown in **Annex 3**. In Phase 3, some partner universities in which the course is integrated into the university's curriculum continue to give credit to students who enrolled in the course. A summary of the number of credits given is shown in the figure 13.

Implementing Partner University	Number of Credits Given		
	2021	2022	2023
Royal University of Agriculture (Cambodia)	116	-	127
SB – IPB University (Indonesia)	72	66	50
National University of Laos (Lao PDR)	59	60	59
Universiti Putra Malaysia (Malaysia)	72	22	42
Yezin Agricultural University (Myanmar)	-	37	50
Kasetsart University (Thailand)	14	21	15
Vietnam National University of Agriculture (Vietnam)	16	36	57
<b>Total</b>	<b>349</b>	<b>242</b>	<b>400</b>

Fig. 13 Number of credits given for FVC training course in Phase 3

The Project invited numerous Japanese and local experts from various companies and organizations, with expertise in topics such as Agricultural Cooperatives, Geographical Indication, Supply Chain and Logistics, Food Value Chain and Sustainable Agriculture, International Trade, Food Traceability, ICT/Smart Agriculture, and also introducing MEADRI Strategic Plan, which is Japan's strategy for a sustainable food system. A list of topics and lecture contents of the Food Value Chain Training Course in Phase 3 can be seen in **Annex 4**.

Furthermore, every expert who delivered the lecture was evaluated by students through a questionnaire as one of the program evaluation tools to improve the lecturer's performance. On a scale of 0 (zero) to five (5), the lecture performance range was 4.17 – 4.51. The student comments were generally positive and conveyed their appreciation for the program. They also expected that through this program, they could positively contribute to developing the Food and Agriculture sector in their respective countries with the newly gained information and knowledge during the programs. The questionnaire results are shown in **Annex 5**.

# All Food Value Chain Training Course in PY 2021 (1 January – 31 December 2021)

## 1. Food Value Chain Training Course under Partnership Program with National University of Laos (NUL)

**26 – 30 July 2021, in Vientiane – Lao PDR**

The FVC Training Course with NUL was successfully carried out in a hybrid scheme from 26 - 30 July 2021, conducted in the Faculty of Agriculture, Department of Rural Economics, and Food Technology of NUL. 59 bachelor students from the Department of Rural Economics and Food Technology attended the lectures virtually provided by 6 experts from Japanese private and academic sectors. The curriculum was formulated with the cutting edge of Japan's advanced food value chain, which comprises Japan's food safety standards, food services industry, food processing and freezing technology, food management, and traceability.

A workshop was also held virtually to stimulate critical thinking on the topics given. The session was supported by Zoom features such as breakout rooms and shared screens to ease discussion and presentation between and among students' groups.

## 2. Food Value Chain Training Course under Partnership Program with Kasetsart University (KU)

**23 – 27 August 2021, in Bangkok – Thailand**

The FVC Training Course with KU was conducted virtually from 23 – 27 August 2021 in the Faculty of Agri-Industry. A total of 43 participants consisted of 16 KU's master's students from the Agro-Industrial Innovation & Management Program, Product Development Program, Food Science & Technology of the Faculty of Agri-Industry, and the School of Integrated Science. Additionally, 1 international student from KU, 5 master's students of Food Science and Technology from UBD, 5 bachelor's students of food and Science and Technology from NUS, and 17 participants from agriculture entities participated in the program.

FVC Training Course in Partnership  
with Kasetsart University in 2021

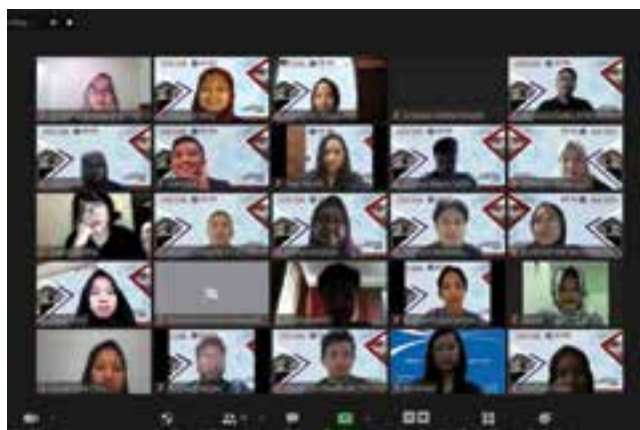

A total of 9 experts from Japanese public and private companies shared their knowledge and practical know-how on Japan's cutting-edge food value chain, which consists of the topics of Agricultural Cooperatives, ICT and Agriculture, Food Service Industry, Sustainability of the Food Industry, Supply Chain and Logistics, Food Education, and Food Export through the Zoom platform.

A workshop was also held virtually to stimulate critical thinking on the topics given. The session was supported by Zoom features such as breakout rooms and shared screens to ease discussion and presentation between and among students' groups.

### **3. Food Value Chain Training Course under Partnership Program with SB-IPB University 31 August – 12 October 2021, in Bogor – Indonesia**

The FVC Training Course with SB-IPB University was held virtually weekly, every Tuesday, from 31 August to 12 October 2021, in the School of Business of IPB University. The program was attended by 72 master's students from the Management Business program.

A total of 11 experts from Japanese public and private companies shared their expertise in Japan's advanced food value chain knowledge and technology, especially on the topics of Agricultural Cooperatives, the Food Industry, Sustainability of Food and Agricultural Products, Food Safety and Quality Assurance, and Food Packaging through the Zoom platform.

FVC Training Course in Partnership  
with SB-IPB University in 2021

A workshop was also held virtually to stimulate critical thinking on the topics given. The session was supported by Zoom features such as breakout rooms and shared screens to ease discussion and presentation between and among students' groups.

### **4. Food Value Chain Training Course under Partnership Program with Royal University of Agriculture (RUA) 6 – 10 September 2021, in Phnom Penh – Cambodia**

FVC Training Course in Partnership  
with Royal University of Agriculture in 2021

The FVC Training Course with RUA was held virtually from 6 – 10 September 2001 in the Faculty of Agro-Industry and attended by 116 bachelor students.

A total of 9 experts from Japanese public and private companies shared their expertise in the Japanese advanced food value chain technology, specifically on topics of Intellectual Property, Food Safety, Agricultural Cooperatives, Quality Assurance, Logistics, Food Standards, Functional Component Analysis, Food Processing Especially Freezing and Chilling Technology, Food Analysis, Food Service Industry, and Functional Food through the Zoom platform.

A workshop was also held virtually to stimulate critical thinking on the topics given. The session was supported by Zoom features such as breakout rooms and shared screens to ease discussion and presentation between and among students' groups.

## **5. Food Value Chain Training Course under Partnership Program with Universiti Putra Malaysia (UPM)**

**4 – 8 October 2021, in Putrajaya – Malaysia**

The FVC Training Course with UPM was virtually completed, starting 4 – 8 October 2021 in the Faculty of Agro-Industry. The program was attended by 116 bachelor students from the Faculty of Agriculture. A total of 11 experts from Japanese public and private companies shared their expertise in Japan's advanced food value chain industry, which covers topics such as Product Development, Agricultural Cooperatives, Agricultural Finance, ICT and Agriculture, Marketing, Sustainability of Food and Agriculture Products, Food Service, and Functional Food through the Zoom platform.

A workshop was also held virtually to stimulate critical thinking on the topics given. The session was supported by Zoom features such as breakout rooms and shared screens to ease discussion and presentation between and among students' groups.

## **6. Food Value Chain Training Course under Partnership Program with Visayas State University (VSU)**

**18 – 22 October 2021, in Leyte – Philippines**

The FVC Training Course with VSU was organized virtually from 18 – 22 October 2021 in the Department of Food Science and Technology. The program was attended by 337 participants consisting of 229 students, 84 faculty staff, 7 employees of government agencies, and 17 international participants. A total of 10 experts from Philippine and Japanese public and private companies virtually shared their expertise in the cutting-edge technology of the food value chain, which includes topics such as Agricultural Cooperatives, Aquatic Production for Food Products, Post-Harvest Technology, Food Frozen Technology, Food Safety and Standard, Functional Food, Marketing, Total Management, and Smart Agriculture. A workshop was also held virtually to stimulate critical thinking on the topics given. The session was supported by Zoom features such as breakout rooms and shared screens to ease discussion and presentation between and among students' groups.

## **7. Talk Show on Food Value Chain and Innovation under Partnership Program with SB-IPB University**

**2 November 2021, in Bogor – Indonesia**

The 1<sup>st</sup> Talk Show on Food Value Chain and Innovation in Partnership with SB-IPB University was successfully organized virtually on 2 November 2021. The program was hosted by the School of Business of IPB University and was attended by 150 students, government, and agriculture participants. 3 resource persons with noted expertise in the food value chain from Japan and Indonesia's public and private sectors were invited for the talk show. The topic of discussion was focused on innovation in the food value chain, including development and innovation in agriculture production and marketing under public-private partnership, enhancement of value added of agriculture products through digital innovation, and the role of women and the young generation in agriculture empowerment.

## 8. Food Value Chain Training Course under Partnership Program with Vietnam National University of Agriculture (VNUA)

8 – 19 November 2021, in Hanoi – Vietnam

The FVC Training Course with VNUA was successfully organized virtually from 8 – 19 November 2021 in the Faculty of Food Science and Technology. The program was attended by 200 participants, consisting of 167 VNUA bachelor students of the Faculty of Food Science and Technology, 18 staff and students from other VNUA facilities, and 15 participants from other universities and public and private sectors.

FVC Training Course in Partnership  
with Vietnam National University of Agriculture in 2021

A total of 10 experts from Japanese public and private companies shared their expertise in Japan's advanced food value chain, which comprises Food Processing and focuses on Sustainability, Freezing and Chilling Technology and lactic acid bacteria, Agri-Business, Food Import and Export, Supply Chain and Logistics, Food Service, ICT and Agriculture, and Post-Harvest Technology through the Zoom platform.

A workshop was also held virtually to stimulate critical thinking on the topics given. The session was supported by Zoom features such as breakout rooms and shared screens to ease discussion and presentation between and among students' groups.

## All Food Value Chain Training Course in PY 2022 (1 January – 31 December 2022)

### 1. Food Value Chain Training Course under Partnership Program with SB – IPB University 5 April – 17 May 2022, in Bogor – Indonesia

FVC Training Course in Partnership  
with SB-IPB University in 2022

The FVC Training Course with SB-IPB University was held from 5 April to 17 May 2022, conducted weekly in the School of Business of IPB University every Tuesday. A total of 66 graduate students from the Management Business Program attended lectures virtually by 6 experts from Japanese private and academic sectors. The curriculum was formulated with the cutting-edge of Japan's advanced food value chain, which comprises the Food Service Industry and Sustainability, ICT/ Smart Agriculture, Japan Agricultural Cooperative and Animal Husbandry/Chicken Egg, Frozen

Technology for Marine Products, Quality Management, and Food Safety Standards.

A workshop was also held virtually to stimulate critical thinking on the topics given. The session was supported by Zoom features such as breakout rooms and shared screens to ease discussion and presentation between and among students' groups.

## **2. Food Value Chain Training Course under Partnership Program with Universiti Putra Malaysia (UPM)**

**12, 19 May, and 2 June 2022, in Putrajaya – Malaysia**

The FVC Training Course with UPM was virtually held for three days on 12 and 19 April and 2 June 2022. The program was conducted in the Department of Agribusiness and Bioresource Economics, with 22 students attending the lectures provided virtually by 5 experts from Japanese private and academic sectors. The curriculum was formulated with the cutting edge of Japan's advanced food value chain, which covers topics such as Smart Agriculture, Supply Chain and Logistics, Sustainable Food and Agricultural Management, Fast food and Restaurant Industry, and Food Safety and Agricultural Cooperatives. A workshop was also held virtually to stimulate critical thinking on the topics given. The session was supported by Zoom features such as breakout rooms and shared screens to ease discussion and presentation between and among students' groups.

## **3. Food Value Chain Training Course under Partnership Program with National University of Laos (NUL)**

**6 – 10 June 2022, in Vientiane – Lao PDR**

FVC Training Course in Partnership  
with National University of Laos in 2022

The FVC Training Course with NUL was successfully organized in a hybrid scheme from 6 to 10 June 2022. The program was conducted in the Faculty of Food Science and Technology. A total of 86 students consisting of 62 bachelor's and master's students of NUL, 7 staff, and 12 government officials and private companies in Lao PDR attended the lectures provided virtually by 15 experts from Japanese private and academic sectors. The curriculum was formulated with the cutting edge of Japan's advanced food value chain, including Food Value Chain Analysis, Virtual Field Study, Agricultural Cooperatives, Japanese Agricultural Standards, Geographical Indications, Agricultural Finance, and Packaging Technology.

A workshop was also held virtually to stimulate critical thinking on the topics given. The session was supported by Zoom features such as breakout rooms and shared screens to ease discussion and presentation between and among students' groups.

## **4. Food Value Chain Training Course under Partnership Program with Vietnam National University of Agriculture (VNUA)**

**4 – 15 June 2022, in Hanoi – Vietnam**

The FVC Training Course with VNUA was successfully organized in a two-week intensive hybrid course from 4 to 15 June 2022. The program was conducted in the Faculty of Food Science and Technology of VNUA. A total of 200 participants attended the program, consisting of 180 students and 9 lecturers from universities in Vietnam, including VNUA, Chan Tho University, and Industrial University of Ho Chi Minh, as well as 11 government officials and companies in Vietnam. A total of 11 experts from Japan's public and private sectors have shared their expertise and practical know-how on FVC. The curriculum was formulated with the cutting edge of Japan's advanced food value chain, which covered topics such as Intellectual Property Rights,

FVC Training Course in Partnership  
with Vietnam National University of Agriculture in 2022

Supply Chain and Logistics, Plan Seedling and Plant Breeding, Agri-Business, Meat Processing/Animal Husbandry, Food Loss, Waste and Environment, Fast Food and Restaurant Industry, International Trade and Agriculture, Action Toward Sustainability, and Agricultural Cooperative through Zoom platform.

A workshop was also held virtually to stimulate critical thinking on the topics given. The session was supported by Zoom features such as breakout rooms and shared screens to ease discussion and presentation between and among students' groups.

## 5. Food Value Chain Training Course under Partnership Program with Universiti of Brunei Darussalam (UBD)

**19 – 20 June 2022, in Bandar Seri Begawan - Brunei Darussalam**

The FVC Training Course with UBD was virtually held from 19 to 20 June 2022 in the Faculty of Science of UBD. The program was participated in by a total of 50 participants, consisting of 15 students and staff of UBD and 29 students and staff from other higher educational institutes in the country (Universiti Islam Sultan Sharif Ali / UNISSA, Universiti Teknologi Brunei / UTB, Politeknik Brunei / PB, and Institute of Brunei Technical Education / IBTE). A total of 7 experts from the Japanese public and private sectors have shared their knowledge and experience in the field of FVC, including topics on ICT/Smart Farming, Quality Control and Traceability, Agribusiness, Virtual Field Study, and Restaurant Industry through the Zoom platform.

A workshop was also held virtually to stimulate critical thinking on the topics given. The session was supported by Zoom features such as breakout rooms and shared screens to ease discussion and presentation between and among students' groups.

FVC Training Course in Partnership  
with Universiti Brunei Darussalam in 2022

## 6. Food Value Chain Training Course under Partnership Program with Kasetsart University (KU)

**19 August – 16 September 2022, in Bangkok – Thailand**

The FVC Training Course with KU was successfully organized virtually every Friday for 5 weeks, commencing on 19 August and being completed on 16 September 2022. The program was implemented virtually through the Zoom platform and hosted by the Department of Agro-Industrial Technology, Faculty of Agro-Industry, Kasetsart University. The program was attended by a maximum of 44 participants, consisting of 21 graduate students from the Department of Agro-Industrial Technology, 5 lecturers, 18 general participants of researchers, other students of KU, and some participants from Thai private companies.

Throughout the program, 10 lecturers with noted expertise in FVC from Japanese private sectors shared their knowledge and experience. The lecture topics included Agricultural Cooperatives, Smart Agriculture, Supply Chain and Logistics, Geographical Indication, Food Processing/Freezing Technology, and Food Service Industry through Zoom platform.

A workshop was also held virtually to stimulate critical thinking on the topics given. The session was supported by Zoom features such as breakout rooms and shared screens to ease discussion and presentation between and among students' groups.

FVC Training Course in Partnership with Kasetsart University in 2022

## 7. Food Value Chain Training Course under Partnership Program with Yezin Agricultural University (YAU)

22 August – 2 September 2022, in Naypyitaw – Myanmar

FVC Training Course in Partnership with Yezin Agricultural University in 2022

The FVC Training Course with YAU was successfully organized in a hybrid scheme from 22 August to 2 September 2022. The 2-week course was requested by YAU as the course in 2021 was delayed. The program was conducted in the Department of Food Science Technology and attended by 58 participants, including 22 bachelor students. The lecture classes were provided virtually by 5 experts from Japanese private and academic sectors, following the curriculum formulated based on Japan's cutting-edge advanced technology in the food value chain. The lecture topics included

Agricultural Cooperatives, Food Processing/Freezing Technology, Food Processing/Dairy Products, Packaging Technology, Food Safety and Traceability, Supply Chain Management, and FVC Concepts.

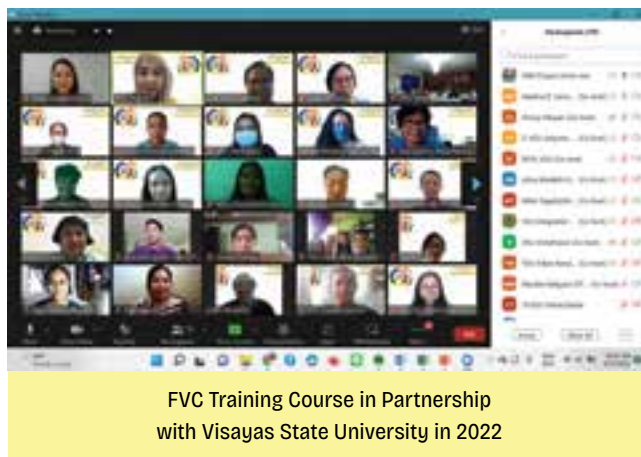

A workshop was also held virtually to stimulate critical thinking on the topics given. The session was supported by Zoom features such as breakout rooms and shared screens to ease discussion and presentation between and among students' groups.

## 8. Food Value Chain Training Course under Partnership Program with Visayas State University (VSU)

12 – 16 September 2022, in Leyte – Philippines

The FVC Training Course with VSU was successfully organized from 12 September to 16 September 2022. The program was implemented virtually through the Zoom platform hosted by the Department of Food Science & Technology of VSU. It was attended by a maximum of 121 participants in a hybrid class, which consists of students and staff of VSU and other higher educational institutes in the country. A total of 9 lecturers with noted expertise in the food value chain from Japanese private sectors shared their knowledge and practical know-how based on their wide range of field experiences through the Zoom

platform. The curriculum was arranged based on consultation among VSU, MAFF Japan, Japan Food Journal, and the Project. It was composed of cutting-edge knowledge on FVC-related topics such as the Concept of Food Value Chain, Agricultural Cooperatives, Packaging Technology, SDGs, ICT and Agriculture/Smart Agriculture, Meat Processing/ Livestock and Dairy Farming, Fast Food and restaurant industry, and Supply Chain and Logistics.

A workshop was also held virtually to stimulate critical thinking on the topics given. The session was supported by Zoom features such as breakout rooms and shared screens to ease discussion and presentation between and among students' groups.

## **9. Talk Show on Sustainable Food System under Partnership Program with SB-IPB University 27 September 2022, in Bogor – Indonesia**

The 2<sup>nd</sup> Talk Show, in Partnership with SB-IPB University, was successfully organized on 27 September 2022. The program was conducted virtually and attended by 126 participants from various program studies and universities in Indonesia, especially SB-IPB University. The topic of the talk show was focused on Sustainable Agriculture Food Systems, emphasizing three discussion points: (1) the correlation between food waste and food loss to climate change, (2) promoting the green strategy of agriculture practices from Japan's perspective by promoting MEADRI (Measures for Achievement of Decarbonization and Resilience with Innovation) Strategic Plan, and (3) promoting the green strategy from Indonesia's perspective by the development of Organic Farming.

Dr. Rumi Ide from Office 3.11 was invited to share her expertise on the discussion point (1). Mr. Gen Kunieda, Director of the Global Environmental Affairs Office, Ministry of Agriculture, Forestry and Fisheries of Japan, shared his practical know-how on point number (2). Finally, point (3) was elaborated by Professor Ahmad Sulaeman from IPB University.

## **All Food Value Chain Training Course in PY 2023 (1 January – 31 December 2023)**

### **1. Food Value Chain Training Course under Partnership Program with Royal University of Cambodia (RUA) 20 – 24 March 2023, in Phnom Penh - Cambodia**

The FVC Training Course with RUA was successfully organized from 20 to 24 March 2023, hosted by the Faculty of Agro-Industry of RUA. The program was implemented in a hybrid scheme where students gathered in a lecture hall and received lectures via Zoom on the first two days and fully onsite on the last two days. Approximately 127 participants enrolled in the training course, and 8 lecturers with noted expertise in FVC from Japanese private sectors shared their knowledge and practical know-how based on their wide range of experiences in FVC-related fields, including Agricultural Cooperative, Agribusiness, Logistics, and Supply Chain, Food Processing, and Smart Agriculture.

FVC Training Course in Partnership with Royal Universiti of Agriculture in 2023

A workshop session and a field visit to a local organic food factory were added to the curriculum to stimulate the students' critical thinking and allow them to discuss their current country's situation based on knowledge and skills introduced by the experts as well as to have hands-on experience and directly study on how to produce and do overseas marketing, including necessary international food safety standards.

## **2. Food Value Chain Training Course under Partnership Program with SB – IPB University 28 March, 4 and 11 April, and 4, 9, 16 May 2023, in Bogor - Indonesia**

The FVC Training Course with SB – IPB University was successfully organized every Tuesday from 28 March to 16 May 2023. The program was implemented virtually through the Zoom platform hosted by the School of Business of IPB University (SB-IPB University). The program was attended by 50 students from the Management Business Program. A total of 5 lecturers with noted expertise in FVC from Japan's public and private sectors were invited and shared their knowledge and practical know-how based on their broad experience in FVC-related fields, including topics such as Food Safety, Cold Chain/Freezing Technology, Food Processing/Manufacturing, and Sustainable Food and Agriculture Management.

FVC Training Course in Partnership with SB-IPB University in 2023

A workshop session was included in the curriculum to stimulate the students' critical thinking and allow them to discuss and comprehend the current country's situation, including challenges and solutions, through skills and knowledge introduced by experts during the lecture. The students were requested to select between two topics.

## **3. Food Value Chain Training Course under Partnership Program with National University of Laos (NUL) 24 - 29 April 2023, in Vientiane - Lao PDR**

The FVC training course with NUL was successfully organized from 24 to 29 April 2023. The program was hosted by the Department of Rural Economics and Food Technology of NUL. From 24 to 26 April 2023, the lecture was conducted in a hybrid scheme where students gathered in a lecture hall and received lectures via Zoom. The lecture and workshop were conducted onsite from 27 to 28 April 2023.

Approximately 59 participants enrolled in the training course, and 10 lecturers with noted expertise in Food Value Chain (FVC) from Japan's government and private sectors and Lao PDR shared their knowledge and practical know-how based on their wide range of experiences in FVC-related fields. The curriculum included topics such as the Concept of FVC, Environment, and SDGs toward sustainability, Roles of Agricultural Cooperatives and Farmers, Supply Chain for Agricultural Products, Geographical Indications, Sustainable Business Management and JA Efforts to add value to agricultural products.

A workshop session and a field visit to a local melon farmer were added to the curriculum to stimulate the students' critical thinking and allow them to discuss their current country's situation based on knowledge and skills introduced by the experts as well as to have hands-on experience and directly observe the full circle of the food value chain from farm to table and the roles of the markets.

FVC Training Course in Partnership with National University of Laos in 2023

#### **4. Food Value Chain Training Course under Partnership Program with Visayas State University (VSU)**

**22 - 25 May 2023, in Leyte – Philippines**

The FVC Training Course with VSU was successfully organized from 22 to 25 May 2023. The program was implemented virtually through the Zoom platform hosted by the Department of Food Science & Technology of VSU. A total of 90 participants were enrolled in the training course consisting of students and staff of VSU and from other higher educational institutes in the country, as well as 2 bachelor students from Universiti Brunei Darussalam. For this program, a total of 7 lecturers with noted expertise in FVC from Japanese private sectors shared their knowledge and practical know-how on FVC-related topics, including Food Value Chain and Sustainable Agriculture, Supply Chain and Logistics, Fast Food and Restaurant Industry, Food Processing/Manufacturing, International Trade, food Traceability by Agriculture Cooperative, ICT/Smart Agriculture.

FVC Training Course in Partnership with Visayas State University in 2023

A workshop was also held to stimulate students' understanding and allow them to discuss the current situation in the Philippines, including challenges and solutions through skills and knowledge introduced by experts during the program.

## **5. Food Value Chain Training Course under Partnership Program with Universiti Putra Malaysia (UPM)**

**29 May, and 10, 12, and 19 June 2023, in Putrajaya – Malaysia**

The FVC Training Course with UPM was successfully organized from 29 May to 19 June 2023. The program was implemented in hybrid mode with the Zoom platform, hosted by the Department of Agribusiness and Bio-Resource Economics of UPM. The program was attended by 42 Department of Agribusiness and Bio-Resource Economics students. A total of 7 lecturers with noted expertise in FVC from Japan's public and private sectors were invited and shared their knowledge and practical know-how on topics

such as ICT/Smart Agriculture, Food Packaging, Food Processing/Manufacturing, Supply Chain and Logistics, International Trade and Food/Agriculture, and Sustainable Agriculture and Start-Up through Zoom platform.

FVC Training Course in Partnership with Universiti Putra Malaysia in 2023

A workshop session and a field visit to AEON Perishable Center were added to the curriculum to stimulate the students' critical thinking and allow them to discuss their current country's situation based on knowledge and skills introduced by the experts as well as to have hands-on experience and directly study on food value chain in actual circumstances in Malaysia.

## **6. Food Value Chain Training Course under Partnership Program with Yezin Agricultural University (YAU)**

**19 – 23 June 2023, in Naypyitaw – Myanmar**

The FVC Training Course with YAU was successfully organized from 19 to 23 June 2023. The program was implemented in a hybrid mode with the Zoom platform, hosted by YAU's Department of Food Science and Technology. A total of 64 participants enrolled in the training course consisting of 52 YAU students and 12 participants from Veterinary Science University, Department of Agricultural Research, Department of Agriculture, Department of Cooperative, and Small-Scale Industry. A total of 6 lecturers with noted expertise in FVC from Japan's public and private sectors and local experts were invited and shared their knowledge and practical know-how related to Food and Environmental Loss by Restaurant Industries, Supply Chain Management, Concept of Food Value Chain, Sustainable Food Production, Food Process/Frozen Technology, and Agricultural Cooperatives through Zoom platform. A workshop session and a field visit to an SME under the Ministry of Cooperative of Myanmar and PNPT Spot Farm were added to the curriculum to stimulate the students' critical thinking and allow them to discuss their current country's situation based on knowledge and skills introduced by the experts as well as to have hands-on experience and directly study about food manufacturing and good agricultural practice.

## **7. Food Value Chain Training Course under Partnership Program with Vietnam National University of Agriculture (VNUA)**

**3 – 14 July 2023, in Hanoi – Vietnam**

The FVC Training Course with VNUA was successfully organized from 3 – 14 July 2023 in a hybrid scheme, hosted by the VNUA. The program was a 2-week course of virtual classes (1<sup>st</sup> week) and onsite classes (2<sup>nd</sup> week).

The program was attended by 164 participants (57 participants online and 107 onsite), consisting of students of VNUA and other Universities, as well as lecturers and staff of Food Companies in Vietnam. A total of 13 lecturers with noted expertise in FVC from Japan's public and private sectors were invited and shared their knowledge and practical know-how based on their broad experience in FVC-related fields, especially Sustainable Food and Agriculture Management, Agriculture Cooperative, ICT and Agriculture, Functional Food, International Trade and Food/Agriculture, Supply Chain and Logistics, Food Processing of Dairy Products, Fast Food and Restaurant Industry, and Frozen Technology.

In addition, a workshop session was included in the curriculum to stimulate the students' critical thinking and allow them to discuss and comprehend the current situation of their countries, including challenges and solutions, through skills and knowledge introduced by experts during the lecture.

FVC Training Course in Partnership with Vietnam National University of Agriculture in 2023

## 8. Food Value Chain Training Course under Partnership Program with Kasetsart University (KU)

**4 – 11 August 2023, in Bangkok – Thailand**

The FVC Training Course with KU was successfully organized from 4 – 11 August 2023 in a hybrid scheme, where some lecturers and participants joined online. Complementary to the training course, the 1<sup>st</sup> talk show in Phase 3 was also held on the last day. The program was attended by 49 participants consisting of Master Students from Thailand, Indonesia, Philippines, Japan, Sweden, and Thailand, as well as public and private companies and academia from Thailand. Hence, 33 participants for the Talk Show came from various backgrounds, including private and academic backgrounds.

Approximately 9 lecturers with noted expertise in FVC from Japan's public and private sectors for the training course and 5 experts from the Private sector in Japan and Thailand for the talk show were invited. They shared their knowledge and practical know-how based on their broad experience in FVC-related fields.

The curriculum for the training course was composed of topics including Sustainable Food and Agriculture Management, Agribusiness, Agriculture Cooperative, Agriculture Machinery, International Food and Food/

FVC Training Course in Partnership with Kasetsart University in 2023

Agriculture, Marketing, and Food Service. As for the talk show, the topic for the 1<sup>st</sup> session was Future Food and Functional Food, as the topic is currently popular and on-demand in both Japan and Thailand and the 2<sup>nd</sup> session was a sharing session on the experience of working in a Japanese company by Thai whose working in a Japanese company.

A workshop session and a field visit to Seven-Eleven Flagship Store and Siam Kubota Farm were added to the curriculum to stimulate the students' critical thinking and allow them to discuss their current country's situation as well as to have hands-on experience and directly observe the supply chain management and applications of advanced technology established in Thailand.

## **9. Talk Show on Smart Technology and Sustainable Agriculture under Partnership Program with SB-IPB University**

### **26 September 2023, in Bogor – Indonesia**

The 3<sup>rd</sup> Talk Show was successfully organized in partnership with SB-IPB University on 26 September 2023. The activity occurred at the School of Business of the IPB University campus and was attended by 134 participants, including students, farmers, and lecturers from IPB University.

The topic focused on Smart Technology and Sustainable Agriculture, emphasizing three discussion points: (1) The transformation of food systems in the Asia-Monsoon region through accelerating the application of agricultural technologies; (2) Promoting modernization and digitalization for the business model of millennial farmers; and (3) Lessons learned from Japan's advanced technology in the Agriculture Sector through the Japan ASEAN Collaboration Project.

Dr. Yasuro Funaki from the Japan International Research Center for Agricultural Science (JIRCAS) was invited to share the latest technology information on discussion point (1) Mr. Sandi Octa Susila, the CEO of Mitra Tani Parahyangan and Leader of Millennial Farmers of Indonesia, shared his practical know-how on point number (2). Point (3) was elaborated on by Ms. Melody Nurramdhani Laksani, Japan ASEAN Goodwill Ambassador for Food and Agriculture.

Talkshow on Smart Technology and Sustainable Agriculture in Partnership with SB-IPB University in 2023

## **Food Analysis Training Course**

Following the installation of High-Performance Liquid Chromatography (HPLC) equipment in Cambodia, Indonesia, Lao PDR, and Malaysia, the Project drafted a Record of Discussion to optimize the equipment's utilization and maintenance. The document was signed by both the Project and the Implementing Agencies.

The curriculum for the Food Analysis Training Course in Phase 3 consisted of two parts: lectures and hands-on training with HPLC. In the hands-on training session, the participants were divided into small groups to experience the JAS Testing method, HPLC data analysis and learned how to handle and maintain each apparatus and reagent properly.

Although the programs in 2021 and 2022 were carried out virtually or in a hybrid scheme, and the Project just resumed the implementation of onsite courses in 2023, the Project has organized 14 programs. More than 900 participants from 7 ASEAN Member States have benefited from this component. The participants' list is shown in **Annex 6**.

A list of the implementing agencies in this phase is shown in the figure 14.

Between 2021 and 2023, the Project invited numerous Japanese and Singaporean experts to share their knowledge of Food Analysis, covering topics specifically Basic High-Performance Liquid Chromatography (HPLC), Introduction of Analytical Equipment, Basic Understanding of Japan Agricultural Standards (JAS), JAS testing method, ISO/IEC17025, and many more. A list of topics and lecture contents of the Food Analysis training course in Phase 3 can be seen in **Annex 7**.

The Project also measured and evaluated the program through pre- and post-surveys for all participants. From this tool, the Project can measure the participants' level of understanding of Japanese Agricultural Standards (JAS), JAS testing method, and ISO/IEC17025, as well as lecture performance and future action plans to understand how participants will utilize the skills and knowledge they gained from the program. The evaluation result is shown in **Annex 8**.

Country	Implementing Agencies
Cambodia	Ministry of Agriculture, Forestry, and Fisheries (MAFF) of Cambodia
Indonesia	IPB University
Lao PDR	National University of Laos (NUL)
Malaysia	Universiti Putra Malaysia (UPM)
Singapore	National University of Singapore (NUS)
Thailand	Kasetsart University (KU)
Vietnam	Vietnam National University of Agriculture (VNUA)

Fig. 14 A list of implementing agencies for the FA training course in Phase 3

## All Food Analysis Training Course in PY 2021 (1 January – 31 December 2021)

### 1. Food Analysis Training Course under Partnership Program with National University of Singapore (NUS) 29 November – 1 December 2021, in Singapore

The FA Training Course with NUS was conducted virtually from 29 November to 1 December 2021 in the Department of Food Science and Technology of NUS. A total of 97 participants participated, consisting of 24 students, lecturers, and researchers from NUS, 50 from other universities, public and private sectors in Singapore, and 23

FA Training Course in Partnership with National University of Singapore in 2021

from academic and public sectors from other AMSs. A total of 10 experts from Singapore and Japanese public, private, and academic sectors shared their knowledge and expertise on Japan's cutting-edge advanced food analysis technology. The curriculum covered Japanese Agricultural Standards (JAS), Ornithine in Shimeji Mushroom as a Functional Food, International Standardization in Food Industries, JAS Testing Methods, Antioxidant Analysis, and ISO/IEC17025.

## All Food Analysis Training Course in PY 2022 (1 January – 31 December 2022)

### 1. Food Analysis Training Course under Partnership Program with Vietnam National University of Agriculture (VNUA)

**5 – 8 April 2022, Hanoi – Vietnam**

The FA Training Course with VNUA was successfully conducted from 5 – 8 April 2022 in the Faculty of Food Science and Technology of VNUA. The program was attended by 113 students consisting of 97 students, lecturers, and researchers from VNUA, 11 participants from other universities, and 5 participants from public and private sectors in Vietnam. A total of 9 lecturers with noted expertise in food analysis from Japanese and Vietnamese public and private sectors were invited. They shared their knowledge and practical know-how based on their broad experiences in food analysis. The curriculum covered three main topics: JAS for functional component analysis, ISO/IEC17025, and HPLC maintenance. Further on the program, the lecturers also introduced participants to Japanese Agricultural Standards (JAS), Ornithine in Shimeji Mushroom as a Functional Food, JAS Testing Methods, International Standardization in Food Industries, Traditional Japanese Medicine and Crude Drugs, and ISO/IEC17025.

FA Training Course in Partnership  
with Vietnam National University of Agriculture in 2022

### 2. Food Analysis Training Course under Partnership Program with IPB University

**12 – 15 July 2022, in Bogor – Indonesia**

FA Training Course in Partnership  
with IPB University in 2022

The FA Training Course with IPB University was successfully organized from 12 to 15 July 2022. The program was implemented in a hybrid scheme hosted by IPB University. It was joined by 206 participants, which consisted of 46 students, lecturers, and researchers from IPB, 126 participants from other universities, and 34 participants from public and private sectors in Indonesia.

Eleven lecturers with noted expertise in food analysis from the Japanese public and private

sectors were invited. They shared their knowledge and practical know-how based on their broad experiences in food analysis. The curriculum consisted of JAS for functional component analysis and functional foods, ISO/IEC17025, and HPLC troubleshooting and maintenance. Throughout days 1 to 3, the participants deepened their knowledge of Japanese Agricultural Standards (JAS), Ornithine in Shimeji Mushroom as a Functional Food, JAS Testing Methods, Standardization in Food Industries, Development of Functional Green Tea and the Use of Functional Food Labeling System in Japan, Traditional Japanese Medicine and Functional Foods, and ISO/IEC17025. On the last day, the program was conducted onsite for HPLC equipment introduction, which included system configuration and principles, equipment cleaning, and maintenance and troubleshooting methods.

### **3. Food Analysis Training Course under Partnership Program with Universiti Putra Malaysia (UPM) 6 – 9 September 2022, in Putrajaya – Malaysia**

FA Training Course in Partnership with Universiti Putra Malaysia in 2022

The FA Training Course with UPM was held from 6 to 9 September 2022. The program hosted by the Faculty of Food Science and Technology of UPM was implemented virtually for the first 3 days and onsite for 1 day. Approximately 54 participants, comprising 26 students, lecturers, and researchers from UPM, 10 from other universities and research institutes, 12 from the government sector, and 6 from the private sector in Malaysia, joined the training course.

The curriculum consisted of three parts: JAS for functional component analysis and functional foods, ISO/IEC17025, and HPLC troubleshooting and maintenance, which were explained and elaborated by 9 lecturers from the Japanese public and private sectors. Further into the program, the participants deepened their understanding of Japan's cutting-edge food analysis-related topics, including Japanese Agricultural Standards (JAS), Ornithine in Shimeji Mushrooms as a Functional Food, JAS Testing Methods, Standardization in Food Industries, Development of Functional Green Tea and the Use of Functional Food Labelling System in Japan, ISO/IEC17025, and HPLC Troubleshooting and Maintenance.

### **4. Food Analysis Training Course under Partnership Program with the Ministry of Agriculture, Fisheries, and Forestry (MAFF) of Cambodia 11 – 14 October 2022, in Phnom Penh – Cambodia**

The FA Training Course with Cambodia's Ministry of Agriculture, Forestry, and Fisheries (MAFF) was held from 11 to 14 October 2022. The program was implemented virtually and onsite, hosted by the Department of Extension for Agriculture, Forestry, and Fisheries (MAFF) of Cambodia. The program was joined by 49 participants, consisting of 35 students and lecturers from the Royal University of Agriculture (RUA), 12 from the government sector, and 2 from the private sector in Cambodia. The curriculum

FA Training Course in Partnership with MAFF of Cambodia

was arranged based on consultation between MAFF Cambodia, MAFF Japan, and the HRD Project. The curriculum was composed of cutting-edge knowledge on food analysis-related topics, which cover the JAS System, Tomato as a Functional Food (Lycopene), JAS Testing Methods, Standardization in Food Industries, Development of Functional Foods and the Use of Functional Food Labeling Systems in Japan, ISO/IEC17025, and HPLC Troubleshooting and Maintenance.

## **5. Food Analysis Training Course under Partnership Program with Kasetsart University (KU) 26 – 28 October 2022, in Bangkok – Thailand**

The FA Training Course with KU was successfully organized from 26 to 28 October 2022. The program was implemented virtually and hosted by the Department of Food Science and Technology of KU. The participants were 50, comprising 26 students and lecturers from KU and other higher educational institutes, 3 from the government sector, and 21 from the private sector in Thailand. A total of 9 lecturers with noted expertise in food analysis from the Japanese public and private sectors were invited and shared their practical knowledge based on their broad experiences in food analysis. The curriculum was composed of cutting-edge knowledge on food analysis-related topics, which covered the outline of JAS, Mushroom as a Functional Food (Ornithine), JAS Testing Methods, Standardization in Food Industries, Development of Functional Foods and the Use of Functional Food Labeling System in Japan, and ISO/IEC17025.

## **6. Food Analysis Training Course under Partnership Program with National University of Laos (NUL)**

**7 – 11 November 2022, in Vientiane – Lao PDR**

The FA Training Course with NUL was successfully organized from 7 to 11 November 2022. The program was implemented virtually for 3 days and onsite for 2 days, hosted by the Faculty of Agriculture of NUL.

The program was joined by 35 participants, consisting of 28 students and staff from the NUL, 6 from the government sector, and 1 from the private sector in Lao PDR. Thirteen lecturers with noted expertise in food analysis from the Japanese and local public and private sectors were invited. They shared their practical knowledge of the Japanese Agriculture System (JAS) for functional component analysis on mushrooms and functional foods (Ornithine), ISO/IEC17025, and hands-on training with High-Performance Liquid Chromatography (HPLC).

FA Training Course in Partnership  
with National University of Laos in 2022

## **All Food Analysis Training Course in PY 2023 (1 January – 31 December 2023)**

### **1. Food Analysis Training Course under Partnership Program with Kasetsart University (KU) 24 - 26 April 2023, in Bangkok – Thailand**

The FA Training Course with KU was successfully organized from 24 to 26 April 2023. The KU Department of Food Science and Technology implemented and hosted the program virtually and on-site. The program was

joined by 52 participants, consisting of 13 academic staff, 32 students, 3 private companies, and 4 from the public sector (Attachment 1). A total of 6 lecturers with noted expertise in food analysis from the well-known Japanese and Singaporean public and private sectors were invited. They shared their practical knowledge based on their broad experiences in food analysis. The curriculum covered cutting-edge knowledge on food analysis-related topics, including Japanese Agricultural Standards (JAS), JAS Testing Methods, the

Development of Functional Foods and the Use of Functional Food Labeling System in Japan, the Importance of Method and Quality Assurance in Analysis, and Hands-on Training with HPLC.

FA Training Course in Partnership with Kasetsart University in 2023

The participants were divided into small groups in the hands-on training session to experience the JAS Testing method. They learned and tried the method of detecting ornithine in raw mushrooms from the pretreatment/sample preparation to HPLC data analysis in a consistent way, as well as how to handle each apparatus and reagent properly.

## 2. Food Analysis Training Course under Partnership Program with Royal University of Agriculture (RUA)

**15 – 17 May and 9 – 11 August 2023, in Phnom Penh – Cambodia**

The FA Training Course with RUA was successfully organized from 15 to 17 May and 9 to 11 August 2023. The program was implemented virtually and on-site, hosted by the Department of Extension for Agriculture, Forestry and Fisheries, MAFF Cambodia. Due to procurement issues, the program was held twice, with lecture classes in May and hands-on training in August.

In May, 42 participants joined the program, consisting of 21 staff and students from RUA, 14 private companies, and 7 from the public sector. 8 lecturers with noted expertise in food analysis from the well-known Japanese public and private sectors were invited. They shared their practical knowledge based on their broad experiences in food analysis, especially on Japanese Agricultural Standards (JAS) and its testing method and other topics such as ISO and functional food.

In August, the program was joined by 25 participants, consisting of 18 university staff and students, 6 government staff, and 1 from the private sector. 3 lecturers with noted expertise in food analysis from the

FA Training Course in Partnership with Royal University of Agriculture in 2023

well-known Japanese and Singaporean private sectors were invited. The curriculum for the hands-on training consisted of hands-on training preparation (Day 1) and practical High-Performance Liquid Chromatography (HPLC) training with the installed analytical equipment (Day 2 – 3). During the training, the participants were divided into small groups to learn and try the method of how to detect Ornithine in Shimeji mushrooms from the pretreatment/sample preparation to HPLC data analysis in a consistent way, as well as how to handle each apparatus and reagent properly.

### **3. Food Analysis Training Course under Partnership Program with National University of Laos (NUL)** **26 – 30 June 2023, in Vientiane – Lao PDR**

The FA Training Course with NUL was successfully organized from 26 to 30 June 2023. The program was implemented virtually and on-site, hosted by the Department of Rural Economics and Food Technology, Faculty of Agriculture, NUL. The program was joined by 39 participants, consisting of 8 academic staff, 22 students, 1 private company, and 8 from the public sector. A total of 10 lecturers with noted expertise in food analysis from the well-known Japanese and Singaporean public and private sectors were invited. They shared their practical knowledge based on their broad experiences in the field of food analysis, which covered cutting-edge knowledge on food analysis-related topics such as Japanese Agricultural Standards (JAS), JAS Testing Methods, Standardization in Food Industries, the Development of Functional Agricultural Products and the Use of Functional Food Labeling Systems in Japan, Basic Understanding and Key Points of ISO/IEC17025,  $\beta$ -cryptoxanthin as Functional Components for Human Health, and Hands-on Training with High-Performance Liquid Chromatography (HPLC).

The participants were divided into small groups during the hands-on training session to experience the JAS Testing method. They learned and tried the method of how to detect  $\beta$ -cryptoxanthin in mandarin orange from the pretreatment/sample preparation to HPLC data analysis in a consistent way, as well as how to handle each apparatus and reagent properly.

FA Training Course in Partnership with National University of Laos in 2023

### **4. Food Analysis Training Course under Partnership Program with IPB University** **24 – 28 July 2023, in Bogor – Indonesia**

The FA Training Course with IPB University was successfully organized from 24 to 28 July 2023. The program was implemented virtually and onsite, hosted by the Department of Food Science and Technology, IPB. The program was joined by 61 participants, consisting of 37 academic staff, 18 government staff, 4 from the private sector, and 2 students. Among them, 30 participants joined hands-on training.

A total of 10 lecturers with noted expertise in food analysis from the well-known Japanese and Singaporean public and private sectors were invited. They shared their practical knowledge based on their broad experiences in the field of food analysis, covering Japanese Agricultural Standards (JAS), JAS Testing Methods, Standardization in Food Industries, the Development of Functional Agricultural Products and the Use of Functional Food Labeling Systems in Japan, Basic Understanding and Key Points of ISO/IEC17025, Evaluation of Traditional Japanese Medicine and Functional Foods, and Hands-on Training with High-Performance Liquid Chromatography (HPLC).

The participants were divided into small groups during the hands-on training session to experience the JAS Testing method. They learned and tried the method of detecting Catechin in various kinds of green teas in a consistent way, from the pretreatment/sample preparation to HPLC data analysis, as well as how to handle each apparatus and reagent properly.

FA Training Course in Partnership in Partnership with IPB University in 2023

## 5. Food Analysis Training Course under Partnership Program with Universiti Putra Malaysia (UPM)

**19 – 22 September 2023, in Putrajaya - Malaysia**

The FA Training Course with UPM was successfully organized from 19 to 22 September 2023. The program was implemented virtually and on-site, hosted by the Department of Food Science, Faculty of Food Science & Technology, UPM. The program was joined by 54 participants, consisting of 19 universities, research institutes, testing lab staff, 12 government staff, 3 from the private sector, and 20 students. Among them, 21 participants joined hands-on training.

FA Training Course in Partnership with Universiti Putra Malaysia in 2023

Approximately 10 lecturers with noted expertise in food analysis from the well-known Japanese and Singaporean public and private sectors were invited. They shared their practical knowledge based on their broad experiences in food analysis fields, which were composed of cutting-edge knowledge on food analysis-related topics such as Japanese Agricultural Standards (JAS), JAS Testing Methods, Standardization in Food Industries, the Development of Functional Agricultural Products and the Use of Functional Food Labeling Systems in Japan, the Importance of Method and Quality Assurance, Physiological Function and Analysis of Apple Procyanidins, and Hands-on Training with High-Performance Liquid Chromatography (HPLC).

The participants were divided into small groups during the hands-on training session to experience the JAS Testing method. They learned and tried the method of how to detect Procyanidins in various kinds of Japanese and Malaysian apple juices and freeze-dried apples from the pretreatment/sample preparation to HPLC data analysis in a consistent way, as well as how to handle each apparatus and reagent properly.

## **6. Special Seminar on Food Analysis Training Course under Partnership Program with IPB University**

### **11 September 2023, in Bogor - Indonesia**

As part of the FA Training Course with IPB University, a Special Seminar was organized on 11 September 2023. The program was joined by 106 participants, consisting of 92 academic staff and students, 10 government staff, and 4 from the private sector. A total of 5 lecturers with noted expertise from the well-known Japanese and Indonesian public and academic sectors were invited. They shared their practical knowledge based on their broad research experiences in prospective foods for well-being.

The agenda consisted of Part I: Indonesian and Japanese Functional Substances / Food Research and Part II: Activities / Research on Social Implementation. It covered cutting-edge knowledge on functional food-related topics that cover Research on Traditional Medicine and Functional Foods, Sensory and Antioxidant Activities of Indonesian Silver Needle White Teas, Food Culture and Well-being, and Functional Labeling System and New Food Development for Well-being Improvement in Japan. A networking session was held after the seminar, connecting lecturers and the participants to share their experiences and knowledge for future work and research.

A survey was distributed to the participants to measure and evaluate the program. Based on the survey, the lecture performance range on a scale of 0 to 5 was 4.25 to 4.45. Questions for future action plans were also included in the survey to see how the participants would utilize the skills/knowledge they gained. Many participants look forward to attending other programs to learn more about food analysis in the future.

Special Seminar on Food analysis Training Course in Partnership with IPB University in 2023

# Food Safety Management Training Course

Starting in Project Year 2022, the Food Safety Management component offered 2 training courses: a basic course and a certification course.

Following the Japan Food Safety Management Association (JFSM), certification courses were conducted in 2 consecutive trainings: Food Safety Training and Audit Training. With some requirements, the certification course is limited to only 20 participants for an effective learning environment. By the end of both trainings, participants who pass the exam will receive a JFS-A/B certificate issued by a JFSM-recognized training organization.

Below is a figure of the participants' number who successfully passed the exam and received the certificates:

	Food Safety Training			Audit Training		
	Number of Participants	Passing Rate	Passed	Number of Participants	Passing Rate	Passed
PY 2022	88	89	78	73	93	68
PY 2023	76	93	71	62	95	59

Fig. 15 Number of participants who received the JFS-A/B certificate in Phase 3

In summary, throughout Phase 3, 15 programs have been implemented in 7 ASEAN Member States and benefited around 800 participants. The participants' list is shown in [Annex 9](#).

A list of the implementing partner universities in Phase 3 is also shown below figure:

In Phase 3, the Project invited Japanese, Thai, and Indonesian experts to share their knowledge of food safety, which covers topics specifically on Japan Food Safety Standards (JFS), including Hazard Analysis Critical Control Point (HACCP), Good Manufacturing Practice (GMP), Food Safety Management (FSM) system, and auditing skills. A list of topics, lecture contents, and collaborating lecturers of the Food Safety Management training course in Phase 3 can be seen in [Annex 10](#).

Furthermore, the Project measured and evaluated the program through pre- and post-surveys for all participants. From this tool, the Project can measure the participants' understanding of HACCP and JFS, lecture performance, and future action plans to understand how participants will utilize the skills and knowledge they gained from the program. The evaluation result is shown in [Annex 11](#).

Country	Implementing Partner Universities
Cambodia	Royal University of Agriculture (RUA)
Indonesia	Indonesian Agricultural Development Polytechnic of Medan (IADP Medan)
Lao PDR	National University of Laos (NUL)
Malaysia	Universiti Putra Malaysia (UPM)
Myanmar	Yezin Agricultural University
Thailand	Kasetsart University (KU)
Vietnam	Vietnam National University of Agriculture (VNUA)

Fig. 16 A list of implementing partner universities for FSM training course in Phase 3

## All Food Safety Management Training Course in PY 2021 (1 January – 31 December 2021)

### 1. Food Safety Management Training Course under Partnership Program with Universiti Putra Malaysia (UPM)

**25 – 26 November 2021, in Putrajaya – Malaysia**

The FSM Basic Course Training with UPM was held virtually on 25 and 26 November 2021, hosted by the Faculty of Food Science and Technology. The program was attended by students and staff from UPM, Universiti Sains Malaysia, Universiti Kebangsaan Malaysia, government officers, researchers, and employees from food-related companies and agricultural community enterprises. The number of participants is 77. A total of 3 experts in food safety from Japan and Thai academia shared their knowledge and expertise in the program. The curriculum was arranged based on consultation between UPM, MAFF Japan, and the Project. It was comprised of essential knowledge on food safety, which consists of HACCP (Hazard Analysis Critical Control Point), GHP (Good Hygiene Practice), JFS (Japan Food Safety Standard), Food Safety Management (FSM) system, and audit skills.

### 2. Food Safety Management Training Course under Partnership Program with Vietnam National University of Agriculture (VNUA)

**27 - 28 November 2021, in Hanoi – Vietnam**

The FSM Basic Course Training with VNUA was successfully organized virtually from 27 to 28 November 2021, hosted by the Faculty of Food Science and Technology. The program was attended by 282 participants, mainly students from VNUA, university staff, researchers, and employees from food-related companies. A lecturer with noted expertise in food safety from Japanese academia was invited and shared his knowledge and practical know-how based on his broad experience in food safety, including HACCP (Hazard Analysis Critical Control Point), GHP (Good Hygiene Practice), JFS (Japan Food Safety Standard), Food Safety Management (FSM) system, and audit skills.

## All Food Safety Management Training Course in PY 2022 (1 January – 31 December 2022)

### 1. Food Safety Management Training Course under Partnership Program with Indonesian Agricultural Development Polytechnic (IADP) of Medan

**15 – 16 April 2022, in Medan – Indonesia**

The FSM Basic Course Training with the Indonesian Agricultural Development Polytechnic (IADP) of Medan has been successfully organized from 15 to 16 April 2022. The Agricultural Development Polytechnic of Medan hosted and conducted the program virtually through Zoom. The program was attended by

FSM Training Course in Partnership with IADM Medan in 2022

47 students, university staff, researchers, government officials, and employees from food-related companies. A lecturer with noted expertise in food safety from Japanese academia was invited and shared his knowledge and practical know-how on food safety, which consisted of Hazard Analysis Critical Control Point (HACCP), Good Hygiene Practice (GHP), Japan Food Safety Standard (JFS), Food Safety Management (FSM) system, and audit skills.

## 2. Food Safety Management Training Course under Partnership Program with Kasetsart University (KU)

**1-5, 8-9, 12, and 15 August 2022, in Bangkok - Thailand**

The FSM Training Course with KU was virtually organized successfully on 1- 5, 8-9, 12, and 15 August 2022 for an intensive JFSM certification course. In this program, the Project collaborated with Ecore Co., Ltd, a recognized certification body by the Japan Food Safety Management Association (JFSM). Two consecutive trainings, namely Food Safety and Audit training, were conducted to measure and evaluate their comprehension and understanding. Upon exam scoring, participants who demonstrated adequate knowledge with a score of 70% or above were eligible to receive certificates issued by Ecore Co., Ltd. The program was attended by students, university staff, researchers, government officials, and employees from food-related companies. The curriculum arranged following JFSM guidelines was comprised of essential knowledge on food safety, which consists of Hazard Analysis Critical Control Point (HACCP), Good Manufacturing Practice (GMP), Japan Food Safety Standard (JFS), Food Safety Management (FSM) system, and audit skills. 13 out of 18 participants obtained certificates in both Food Safety and Audit training, which is one of the requirements to become a JFS-A/B standard auditor.

## 3. Food Safety Management Training Course under Partnership Program with Royal University of Agriculture (RUA)

**22-26, 29-31 August and 1 September 2022, in Phnom Penh – Cambodia**

The FSM Training Course with RUA was held on 22-26, 29-31 August and 1 September 2022. The program was implemented virtually and hosted by the Royal University of Agriculture for an intensive JFSM certification course. In this program, the Project collaborated with Ecore Co., Ltd, a recognized certification body by the Japan Food Safety Management Association (JFSM). Two consecutive trainings, namely Food Safety and Audit training, were conducted to measure and evaluate their comprehension and understanding.

FSM Training Course in Partnership with Royal University of Agriculture in 2022

Upon exam scoring, participants who demonstrated adequate knowledge with a score of 70% or above were

eligible to receive certificates issued by Ecore Co., Ltd. The program was attended by students, university staff, researchers, government officials, and employees from food-related companies. The curriculum arranged following JFSM guidelines was comprised of essential knowledge on food safety, which consists of Hazard Analysis Critical Control Point (HACCP), Good Manufacturing Practice (GMP), Japan Food Safety Standard (JFS), Food Safety Management (FSM) system, and audit skills. 14 out of 20 participants obtained certificates in both Food Safety and Audit training, which is one of the requirements to become a JFS-A/B standard auditor.

#### **4. Food Safety Management Training Course under Partnership Program with National University of Laos (NUL)**

**5-7, 9, 12 September, 24,25,31 October and 16 November 2022, in Vientiane – Lao PDR**

The FSM Training Course with NUL was implemented on 5-7, 9, 12 September, 24- 25, 31 October, and 16 November 2022. The program was implemented virtually and hosted by NUL. In this program, the project collaborated with Ecore Co., Ltd, a recognized certification body by the Japan Food Safety Management Association (JFSM), to conduct an intensive training course for JFSM certification. Two consecutive trainings, namely Food Safety and Audit training, were conducted to measure and evaluate their comprehension and understanding. Upon exam scoring, participants who demonstrated adequate knowledge with a score of 70% or above were eligible to receive certificates issued by Ecore Co., Ltd. The program was attended by students, university staff, government officials, and employees from food-related companies. The curriculum arranged following JFSM guidelines was comprised of essential knowledge on food safety, which consists of Hazard Analysis Critical Control Point (HACCP), Good Manufacturing Practice (GMP), Japan Food Safety Standard (JFS), Food Safety Management (FSM) system and audit skills. 9 out of 18 participants obtained certificates in both Food Safety and Audit training, which is one of the requirements to become a JFS-A/B standard auditor.

FSM Training Course in Partnership with National University of Laos in 2022

#### **5. Food Safety Management Training Course under Partnership Program with Vietnam National University of Agriculture (VNUA)**

**3-5, 11, 19 October, 7-8, 14, 16 November 2022, in Hanoi – Vietnam**

FSM Training Course in Partnership with Vietnam National University of Agriculture in 2022

The FSM Training Course with VNUA was successfully organized on 3-5, 11, 19 October, 7-8, 14, and 16 November 2022. The program was hosted by the VNUA and implemented virtually for an intensive JFSM certification course. In this program, the Project collaborated with Ecore Co., Ltd, a recognized certification body by the Japan Food Safety Management Association (JFSM). Two consecutive trainings, namely Food Safety and Audit training, were conducted to measure and evaluate their comprehension and understanding.

Upon exam scoring, participants who demonstrated adequate knowledge with a score of 70% or above were eligible to receive certificates issued by Ecore Co., Ltd. Lecturers and staff of universities in Vietnam, central and local government officials, agricultural cooperatives, and employees from food-related companies attended the program. The curriculum arranged following JFSM guidelines was comprised of essential knowledge on food safety, which consists of Hazard Analysis Critical Control Point (HACCP), Good Manufacturing Practice (GMP), Japan Food Safety Standard (JFS), Food Safety Management (FSM) system and audit skills. 17 out of 19 participants obtained certificates in both Food Safety and Audit training, which is one of the requirements to become a JFS-A/B standard auditor.

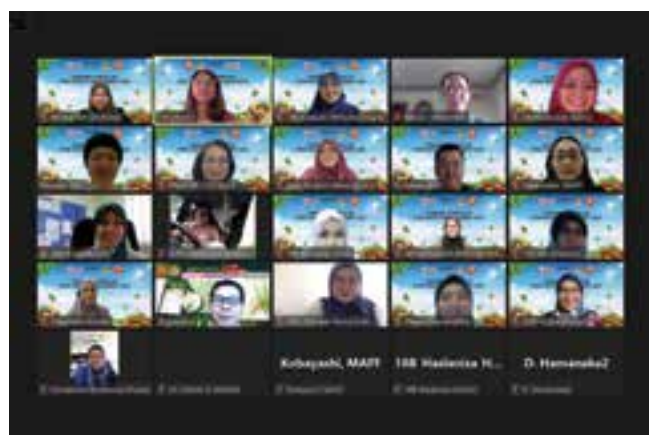

## **6. Food Safety Management Training Course under Partnership Program with Yezin Agricultural University (YAU) 27 – 28 October 2022, in Naypyitaw – Myanmar**

The FSM Basic Course Training with YAU was successfully organized from 27 to 28 October 2022. The YAU hosted the program and conducted it virtually through the Zoom platform. The program was attended by 46 participants, including students, university staff, and government officials. A lecturer with noted expertise in food safety from Japanese academia was invited and shared his knowledge and practical know-how based on his broad experience in food safety. The curriculum was comprised of essential knowledge on food safety, which consists of Hazard Analysis Critical Control Point (HACCP), Good Hygiene Practice (GHP), Food Safety Management (FSM) system, and audit skills.

FSM Training Course in Partnership with Yezin Agricultural University in 2022

## **7. Food Safety Management Training Course under Partnership Program with Universiti Putra Malaysia (UPM) 14-15, 17-18, 22-23 November 2022, in Putrajaya – Malaysia**

FSM Training Course in Partnership with Universiti Putra Malaysia in 2022

The FSM Training Course with UPM was implemented virtually on 14-15, 17-18, and 22-23 November 2022 and hosted by UPM. In this program, the project collaborated with Kagoshima University, a recognized certification body by the Japan Food Safety Management Association (JFSM), to conduct an intensive training course for JFSM certification. Two consecutive trainings, namely Food Safety and Audit training, were conducted by lecturers from Kagoshima University and Mae Fah Luang University. The exams were conducted at the end of both trainings to measure and evaluate their comprehension and understanding.

Upon exam scoring, participants who demonstrated adequate knowledge with a score of 70% or above were

eligible to receive certificates issued by Kagoshima University. The program was attended by lecturers/staff of universities in Malaysia, researchers, and central government officials. The curriculum arranged following JFSM guidelines was comprised of essential knowledge on food safety, which consists of Hazard Analysis Critical Control Point (HACCP), Good Manufacturing Practice (GMP), Japan Food Safety Standard (JFS), Food Safety Management (FSM) system and audit skills. 15 out of 20 participants obtained certificates in Food Safety and Audit training, which is one of the requirements to become a JFS-A/B standard auditor.

## **All Food Safety Management Training Course in PY 2023 (1 January – 31 December 2023)**

### **1. Food Safety Management Training Course under Partnership Program with Kasetsart University (KU)**

**15-19, 22, 25 May 2023, in Bangkok - Thailand**

The FSM Training Course with KU was successfully organized from 15-19, 22, and 25 May 2023. The program was implemented onsite and hosted by the Department of Food Science and Technology of KU. In this program, the Project collaborated with Kagoshima University, a recognized certification body by the Japan Food Safety Management Association (JFSM), to conduct an intensive training course for JFSM certification. This course consisted of 2 consecutive pieces of training, namely Food Safety training and Audit training, which 2 lecturers delivered from Kagoshima University and Mae Fah Luang University of Thailand. At the end of each training, tests and retests (for those who failed the test) were conducted to measure and evaluate their comprehension and understanding.

Upon exam scoring, participants who demonstrated adequate knowledge with a score of 70% or above were eligible to receive certificates issued by Kagoshima University. The program was joined by the private sector, students, and academic staff of KU. The curriculum was arranged following JFSM guidelines, which were comprised of essential knowledge on food safety, including HACCP (Hazard Analysis Critical Control Point), GMP (Good Manufacturing Practice), JFS (Japan Food Safety Standard), Food Safety Management (FSM) system, and auditing skills.

FSM Training Course in Partnership with Kasetsart University in 2023

### **2. Food Safety Management Training Course under Partnership Program with Vietnam National University of Agriculture (VNUA)**

**7-9, 27, 29 June, 27-28 July, and 15, 17 August 2023, in Hanoi - Vietnam**

The FSM Training Course with VNUA was successfully organized from 7-9, 27, 29 June, 27-28 July, and 15, 17 August 2023. The program was implemented virtually and hosted by the Faculty of Food Science

and Technology of VNUA. In this program, the Project collaborated with ECORE Co., Ltd., a recognized certification body by the Japan Food Safety Management Association (JFSM), to conduct an intensive training course for JFSM certification. This course consisted of 2 consecutive trainings, namely Food Safety and Audit training. At the end of each training, tests and retests (for those who failed the test) were conducted to measure and evaluate their comprehension and understanding.

Upon exam scoring, participants who demonstrated adequate knowledge with a score of 70% or above were eligible to receive certificates issued by ECORE Co., Ltd. Employees of the private sector, academia, agricultural cooperatives, and government officials joined the program. The curriculum was arranged following JFSM guidelines, which were comprised of essential knowledge on food safety, including HACCP (Hazard Analysis Critical Control Point), GMP (Good Manufacturing Practice), JFS (Japan Food Safety Standard), Food Safety Management (FSM) system and auditing skills.

FSM Training Course in Partnership with National University of Laos in 2023

### **3. Food Safety Management Training Course under Partnership Program with National University of Laos (NUL)**

**21-23 June, 18, 20 July, 7-8, 19, 21 September 2023, in Vientiane – Lao PDR**

The FSM Training Course with NUL was successfully organized from 21-23 June, 18- 20 July, 7-8, 19, and 21 September 2023. The program was implemented onsite and hosted by the Department of Rural Economics and Food Technology, Faculty of Agriculture of NUL. In this program, the Project collaborated with ECORE Co., Ltd., a recognized certification body by the Japan Food Safety Management Association (JFSM), to conduct an intensive training course for JFSM certification. This course consisted of 2 consecutive trainings, namely Food Safety and Audit training. At the end of each training, tests and retests (for those who failed the test) were conducted to measure and evaluate their comprehension and understanding.

Upon exam scoring, participants who demonstrated adequate knowledge with a score of 70% or above were eligible to receive certificates issued by ECORE Co., Ltd. University staff and NUL students joined the program. The curriculum was arranged following JFSM guidelines, which were comprised of essential knowledge on food safety, including HACCP (Hazard Analysis Critical Control Point), GMP (Good Manufacturing Practice), JFS (Japan Food Safety Standard), Food Safety Management (FSM) system and auditing skills.

### **4. Food Safety Management Training Course under Partnership Program with Universiti Putra Malaysia (UPM)**

**31 July, 1, 3, 4, 7, 8, 10 August 2023, in Putrajaya – Malaysia**

The FSM Training Course with UPM was successfully organized from 31 July, 1, 3, 4, 7, 8, and 10 August 2023. The program was implemented in a hybrid scheme and hosted by the Department of Food Service

and Management of UPM. In this program, the Project collaborated with Kagoshima University, a recognized certification body by the Japan Food Safety Management Association (JFSM), to conduct an intensive training course for JFSM certification. This course consisted of 2 consecutive trainings, namely Food Safety and Audit training, which 2 lecturers delivered from Kagoshima University and Mae Fah Luang University. At the end of each training, tests and retests (for those who failed the test) were conducted to measure and evaluate their comprehension and understanding.

Upon exam scoring, participants who demonstrated adequate knowledge with a score of 70% or above were eligible to receive certificates issued by Kagoshima University. The program was joined by government workers and UPM's academic staff. The curriculum was arranged following JFSM guidelines, which were comprised of essential knowledge on food safety, including HACCP (Hazard Analysis Critical Control Point), GMP (Good Manufacturing Practice), JFS (Japan Food Safety Standard), Food Safety Management (FSM) system and auditing skills.

## **5. Food Safety Management Training Course under Partnership Program with Yezin Agricultural University (YAU)**

**21 – 23 August 2023, in Naypyitaw – Myanmar**

The FSM Basic Course Training with YAU was successfully organized from 21 to 23 August 2023. The YAU Department of Food Science and Technology hosted and conducted the program virtually through Zoom. The program was attended by 51 students and 1 university staff of YAU.

The curriculum was arranged based on consultation between YAU, a lecturer from Kagoshima University, and the Project. It was comprised of essential knowledge on food safety, which consists of the concept of the Japan Food Safety Standard (JFS), including Hazard Analysis Critical Control Point (HACCP), Good Hygiene Practice (GHP), Food Safety Management (FSM) system, and audit skills. Additionally, interactive sessions were included to learn how to make HACCP Plans, including hazard analysis, critical control point decisions, critical limit establishment, etc. A case study was also included to learn how to audit food factories by themselves. After individual thinking, the lecturer provided sample answers.

## **6. Food Safety Management Training Course under Partnership Program with Indonesian Agricultural Polytechnic of Medan (IADP) of Medan**

**13 September 2023, in Medan - Indonesia**

The FSM Training Course with IADP Medan was successfully organized on 13 September 2023. The program was conducted onsite, with some participants joining online, and IADP Medan hosted it. A total of 116

FSM Training Course in Partnership with IADP Medan in 2023

participants joined the program, with 40 participants onsite and 76 participants attending through the Zoom platform, including students, university staff, government agencies, agricultural cooperatives, and employees from the private sector. Among the participants, notably 22 representatives from SMEs actively involved in food processing in Medan, Binjai, and Deli Serdang districts were invited. 4 lecturers with noted expertise in food safety from Japanese companies and private sectors in Indonesia were invited. They shared their knowledge and practical skills related to HACCP and global food safety standards, including JFS Standards.

The curriculum was arranged based on consultation between IADP Medan, MAFF Japan, and the Project. It comprised essential knowledge on food safety such as global food safety standards, the concept of Hazard Analysis Critical Control Point (HACCP), Good Manufacturing Practice (GMP), Food Defense, etc. This knowledge is essential for the people involved in the food industry.

## Japan Field Study On Food And Agriculture Industry And Internship To Japanese Food And Agriculture Industries Program

In response to the requests of the ASEAN Member States, once international travel and onsite programs can be resumed in Project Year 2023, the Japan Field Study and Internship Programs are continued and organized. These programs enrich and complement the Food Value Chain Training Course participants received in class.

### 1. Internship to Japanese Food and Agriculture Industries (8 – 11 May 2023, in Japan)

The Internship Program in Partnership with Visayas State University (VSU) under HRD Project Phase 3 was successfully organized from 8 to 16 May 2023. The program was collaborated with and hosted by Yoshinoya Holdings Co., Ltd. The activity was implemented in Japan, where the students learned directly about Yoshinoya’s advanced value chain from farm to table.

Upon coordination among VSU, Yoshinoya Holdings, Japan Food Journal, and the Project, 3 participants, consisting of 2 students and 1 lecturer, were selected to join the program. The participant’s list is as shown in the figure 17.

No.	Name	Position	Affiliation
1	Ms. Jay Marie Vega Salapi	Student	Visayas State University
2	Mr. Benedict Walter Carteciano Mateo	Student	
3	Ms. Eileen Bulawan Bandalan	Lecturer	

Fig. 17 Participant's list of Internship Program with VSU in 2023

The program was arranged following the flow of Yoshinoya’s Food Value Chain in serving their product from farm to table. The program started in Yoshinoya’s Fukushima Farm, continued to the meat and vegetable processing center, and ended in Tokyo for visits to Yoshinoya’s restaurant and market observations. Participants learned comprehensively about Good Agricultural Practices and Sustainable Farm Management, Good Manufacturing Processes, restaurant service business, and market observations. In addition, the

participants visited Yoshinoya's Head Office and met the Human Resource Development Team to learn how Yoshinoya nurtured its employee's skills and knowledge.

After the Program, the participating students presented their internship experience during the Food Value Chain Training Course organized by the Project and VSU on 23 May 2023. The students shared the program's outline, learning experiences, and impressions during the program as part of dissemination and knowledge sharing with students in the Philippines.

As part of the program evaluation, a questionnaire was distributed to both Yoshinoya and Visayas State University to understand the program's relevance and effectiveness, especially the expectation of both parties, i.e., Yoshinoya and VSU, are compatible with each other in the Human Resources Development provision. Based on the questionnaire given, Yoshinoya, the HR seeker, and VSU, the HR provider, agreed that the Program is relevant and practical to meet their requirements and expectations.

Internship to Japanese Food and Agriculture Industries

## 2. Japan Field Study on Food and Agriculture Industry (20 - 28 August 2023, in Japan)

The Field Study on Food and Agriculture Industry in Japan 2023 under HRD Project Phase 3 was successfully organized from 20 to 28 August 2023 in Osaka, Kyoto, and Tokyo Area, Japan. The Project invited 12 participants from Lao PDR and Cambodia, consisting of 1 government official from each country and 4 students and 1 university staff from the National University of Laos (NUL) and the Royal University of Agriculture (RUA) of Cambodia, respectively. The participant's list is as shown in the Figure 18.

In this program, the participants comprehensively learned about Japanese agriculture and the food value chain. Participants were also introduced to various food-related companies across the Tokyo area, Kyoto, and Osaka, including visits to plants, factories, farms, and wholesale and traditional markets in Japan to deeply understand the Japanese food service industry and food value chain.

On the last day, two student groups representing each Lao PDR and Cambodia had an opportunity to give their utmost effort in presenting their experiences and lessons learned from their visit to various Japanese companies throughout the program. They presented their Action Plan on how their newly acquired skills and knowledge can be applied to develop the food value chain system in their home country further in the future.

As part of the program evaluation, the questionnaire was distributed to the participants to understand their perception of this Field Study based on several criteria, including relevance, effectiveness, impact, and program sustainability. Based on the questionnaire, the average score of the whole program was 3.78

out of 5. The participants were delighted to have the opportunity to participate in the program, and the knowledge they gained will be widely disseminated among their peers, students, and colleagues, even using the lessons learned as examples in their teaching courses.

No.	Country	Name	Position	Affiliation
1	Cambodia	Ms. Vansocheatta Sok	Student	Faculty of Agro-Industry, RUA
2		Ms. Kean Sreyna	Student	Faculty of Agro-Industry, RUA
3		Mr. Sotheaboreach Ham	Student	Faculty of Agro-Industry, RUA
4		Mr. Chanraeksmey Somart	Student	Faculty of Agro-Industry, RUA
5		Dr. Rathna Hor	Professor	Faculty of Agro-Industry, RUA
6		Mr. Ngeth Kep	Government	Department of Agriculture Cooperatives Promote
7	Lao PDR	Ms. Kangbao Xaytouthao	Student	Department of Rural Economy and Food Technology, NUL
8		Mr. Souksan Souliyananh	Student	Department of Rural Economy and Food Technology, NUL
9		Mr. Phouthasone Xaisongkham	Student	Department of Rural Economy and Food Technology, NUL
10		Ms. Stakhome Xaiyaseng	Student	Department of Rural Economy and Food Technology, NUL
11		Dr. Sayvisene Boulom	Professor	Department of Rural Economy and Food Technology, NUL
12		Mr. Souvanthong Namvong	Government	Department of Agricultural Extension and Cooperatives, Ministry of Agriculture and Forestry

Japan Field Study on Food and Agriculture Industry

## Meetings Under The Project

### 1. Japan Expert Meeting 2021 (7 December 2021, virtually convened from Tokyo - Japan)

The meeting was held on 7 December 2021 in a virtual format. The meeting aimed to be an advisory meeting attended by related stakeholders of the Project, consisting of Japanese experts from relevant companies

and MAFF Japan. The meeting summarized the status of the HRD Project implementation during Project Year 2021. Also, the meeting discussed and considered the management and support system of the HRD Project and sought further cooperation from Japanese experts. The meeting also included seeking a new possibility for the program implementation to adapt to the ongoing pandemic, such as using simultaneous interpretation for lectures. All comments from the Japanese experts are beneficial to improve Project Phase 3 in 2022.

## **2. Advisory Committee Meeting 2021 (14 December 2021, virtually convened from Jakarta – Indonesia)**

An Advisory Committee Meeting was virtually convened on 14 December 2021 from Jakarta, Indonesia. The Meeting was attended by the Focal Points of the HRD Project-3, except Singapore, as well as the ASEAN Sectoral Working Group on Agricultural Cooperatives (ASWGAC) and the ASEAN Sectoral Working Group on Agricultural Training and Extension (AWGATE). Delegates from MAFF Japan and the Project Management Team at the ASEAN Secretariat were also in attendance.

The Project and university partners shared the result of program implementation in Project Year 2021, as well as their concerns and requests for next year's plan.

## **3. Japan Expert Meeting 2022 (20 October 2022, in Tokyo – Japan)**

Japan Expert Meeting 2022

Japan Expert Meeting was successfully organized on 20 October 2022 in Tokyo, Japan, and attended by the Project's stakeholders consisting of the Project's Consultant, Japanese Experts from relevant companies, and MAFF Japan.

The Project reported the outcome of the FVC Program during Project Year 2022, including the evaluation from the student's perspective and the effectiveness of the interpreting method applied by the Project. The meeting also discussed inquiries from the Japanese experts regarding brief information related to FVC and the current

situation in each AMS to keep the lecture material relevant and the possibility of implementing the program in onsite and hybrid schemes.

## **4. Advisory Committee Meeting 2022 (2 – 3 November and 6 December 2022, in Bali and Jakarta – Indonesia)**

An Advisory Committee Meeting for Food Value Chain was held from 2 to 3 November 2023 in Bali - Indonesia, and co-hosted by the Ministry of Cooperative and SMEs of Indonesia. The meeting was attended

by delegates from the ASEAN Member States, except Singapore and Thailand, the ASEAN Sectoral Working Group on Agricultural Cooperatives (ASWGAC), and a representative from the ASEAN Secretariat. Representatives from MAFF Japan and the Japan Food Journal also joined the meeting virtually. The meeting is aimed at discussing the implementation of the FVC progress of the 2022 activities and identifying priority activities for 2023 to be supported by the project.

#### Advisory Committee Meeting 2022

ACM FVC Delegates

On 6 December 2022, an Advisory Committee Meeting for Food Analysis and Food Safety Management was organized virtually. The meeting aimed to summarize the status of the activity of FSM and FA programs in 2022, obtain feedback on the FSM and FA programs, and discuss the work plan for 2023. Both ACMs for Food Analysis and Food Safety Management were attended by the National Focal Points of the HRD Project-3, including the MAFF Japan, a representative from the ASEAN Secretariat, ASEAN Sectoral Working Group on Agricultural Training and Extension (AWGATE), and collaborating universities in ASEAN, except Singapore, Philippines, and Brunei Darussalam.

### 5. Japan Expert Meeting 2023 (20 September 2023, in Tokyo – Japan)

Japan Expert Meeting with the project stakeholders in Japan was successfully organized on 20 September 2023. The meeting was conducted to obtain feedback from stakeholders in Japan, including the Japan Food Journal (JFJ), the Ministry of Agriculture, Forestry and Fisheries (MAFF) Japan, and several Japanese companies that collaborated with us in the Food Value Chain (FVC) Program under HRD Project Phase 3 and to summarize the outcome of Phase 3.

The meeting also noted the inquiries from Japanese experts for the Project to collect information on participants for compelling workshop themes. The meeting also discussed the importance of the quantitative goals to evaluate the project and find a positive impact on Japan.

### 6. Advisory Committee Meeting 2023 (16 – 20 October 2023, in Tokyo, Japan)

The final Advisory Committee Meeting of Phase 3 was successfully organized consecutively for the three components, hosted by the Project Management Team and co-hosted by the Institute for the Development of Agricultural Cooperation in Asia (IDACA) from 18 to 20 October 2023 in Tokyo, Japan.

The ACM for FA and FSM was organized on 16 October 2023 and was attended by the Focal Points of the HRD Project Phase 3, including the sectoral working group and collaborating universities in ASEAN, except Singapore and Brunei Darussalam, delegates from MAFF Japan, and a representative from ASEAN Secretariat. The Meeting was briefed on the summary of the activity of FA and FSM programs in Project Year 2023, which includes the results of pre-and post-surveys from participants. The Meeting also took note of the program proposals submitted for further arrangement under Phase 4.

Following the success of ACM for FA and FSM, an ACM for FVC also took place on 19 October 2023. The meeting was attended by Focal Points of the HRD Project, including the sectoral working group and

collaborating universities in ASEAN, except Singapore, delegates from the MAFF Japan, and a representative from the ASEAN Secretariat. The Project Coordinator briefed the Meeting about the summary activities of the FVC Program in 2023, including the implemented programs and evaluation results from students and universities. The meeting also took note of the Program Proposal submitted by Partner Universities for further arrangement under Phase 4.

As enrichment, factory and farm visits were organized for FSM, FA, and FVC focal points, respectively. A seminar on Developing a Food Value Chain through Partnerships between Universities in ASEAN and Japan was also held on the last day. Siam Kubota (Thailand), Tokyo University of Agriculture (Japan), Senshu University (Japan), Visayas State University (Philippines), and National University of Laos (Lao PDR) discussed collaboration and cooperation between Japanese and ASEAN universities and private sectors. The seminar was attended by a total of 63 participants, 40 attended onsite and 23 joined virtually.

## Other ASEAN Meetings

Besides the thematic conference, the Project also proactively participated in related ASEAN meetings to report the progress of the Project, gather input from ASEAN stakeholders for improvement, and better accommodate the needs of all AMSs. The Project Coordinator attended these meetings as a representative of the Project.

No.	Meeting	Date and Venue	Note (Meeting Result)
1	Special Senior Officials Meeting of the 20 <sup>th</sup> Meeting of the ASEAN Ministers on Agriculture and Forestry Plus Three (The 20 <sup>th</sup> SSOM AMAF +3 Meeting +3)	24 August 2021, hosted virtually from Cambodia	The AMSs took note of the report on the progress of the Project
2	The 22 <sup>nd</sup> ASWGAC Meeting	16 September 2021, hosted virtually from the Philippines	The AMSs took note of the report on the progress of the Project
3	The 28 <sup>th</sup> AWGATE Meeting	9 March 2022, hosted virtually from Jakarta - Indonesia	The AMSs took note of the report on the progress of the Project
4	The 21 <sup>st</sup> SSOM AMAF +3 Meeting	24 August 2022, hosted virtually from Jakarta - Indonesia	The AMSs took note of the report on the progress of the Project
5	The 23 <sup>rd</sup> ASWGAC Meeting	6 October 2022, hosted virtually from Thailand	The AMSs took note of the report on the progress of the Project
6	The 29 <sup>th</sup> AWGATE Meeting	30 – 31 March 2023, in Vientiane – Lao PDR	The AMSs took note of the report on the progress of the Project
7	The 22 <sup>nd</sup> SSOM AMAF +3 Meeting	22 August 2023, hosted virtually from Vientiane – Lao PDR	The AMSs took note of the report on the progress of the Project
8	The 24 <sup>th</sup> ASWGAC Meeting	7 September 2023, in Vietnam	The AMSs took note of the report on the progress of the Project

Fig. 19 Matrix of other ASEAN meetings in Phase 3

# Publication Platform

As part of the Project's outreach efforts, various social media platforms, including a Facebook fan page, Twitter, and Instagram, have been developed since Project Year 2017. Facebook posts have garnered thousands of views and active engagement, especially among partner university students. Meanwhile, efforts are ongoing to enhance Twitter and Instagram usage further.

The link to the Project's Facebook page is: <https://www.facebook.com/AseanJapanAgri>

Although the website development was initially initiated in Phase 1, it was postponed due to challenges in building and maintaining the website. Recognizing the website's importance as an essential platform for information dissemination and material exchange among partner universities, construction and development have been resumed in Project Year 2023.

The website can be accessed through this link: <https://aseanhrdproject.com>

With the introduction of this new website, the Project aims to provide a platform for universities and implementing agencies to communicate and share valuable information, articles, or materials related to FVC, FSM, and FA. The website features a user-friendly interface and comprehensive content, facilitating easy navigation and access to essential publicly available Project information.

# Project Management Team In Phase 1

Mr. Masanori Kawaguchi was dispatched from MAFF Japan as a Project Coordinator from 1 October 2014 to 30 September 2016. As the project is still ongoing, MAFF Japan assigned Mr. Kenji Yoshida as Assistant Project Coordinator, hired Ms. Maria Octorayanti as Project Officer, and prepared to dispatch another person as a successor to Mr. Masanori Kawaguchi to ensure the necessary arrangement and smooth implementation of the Project. In 2017, Mr. Eiji Hatano was dispatched to the Project as the successor of Mr. Masanori Kawaguchi and Mr. Kenji Yoshida.

**Mr. Masanori Kawaguchi**  
Project Coordinator

From November 2014 to  
September 2016

**Mr. Eiji Hatano**  
Project Coordinator

From February 2017 to  
December 2017

**Mr. Kenji Yoshida**  
Assistant Project Coordinator

From February 2016 to  
September 2017

**Ms. Maria Octorayanti**  
Project Officer

From March 2015 to  
December 2017

# Project Management Team In Phase 2

In 2018, MAFF Japan continued to dispatch Mr. Eiji Hatano as the Project Coordinator and Ms. Kie Inoue as Assistant Project Coordinator to manage the Project. To provide administrative and technical support, the Project hired Ms. Maria Octorayanti as the Project Officer.

Since the Project was expanded with the extra workload, in 2019, MAFF Japan also dispatched one more personnel to the Project, Mr. Kazunari Sakai, as a Senior Service Officer, and there was an extra workload along with the expansion. MAFF Japan planned to dispatch 1 (one) more personnel to the project, projected as Senior Service Staff. Lastly, Ms. Deandra Arifianti W. was hired as an Assistant Project Officer to support daily activities in response to the expansion.

**Mr. Eiji Hatano**  
Project Coordinator

From January 2018  
to September 2020

**Ms. Kie Inoue**  
Assistant Project  
Coordinator

From January 2018 to  
December 2019 and from  
April 2020 to December 2020

**Mr. Kazunari Sakai**  
Special Service Staff

From April 2019 to  
December 2020

**Ms. Maria Octorayanti**  
Project Officer

From January 2018 to  
December 2020

**Ms. Deandra  
Arifianti W.**  
Assistant Project Officer

From March 2019 to  
December 2020

# Project Management Team In Phase 3

A new Project Management Team was established for Phase 3. As the Project continued to expand and implement more programs for each component, MAFF Japan dispatched Mr. Hiroaki Kinoshita as Project Coordinator, Ms. Megumi Tarui as Assistant Project Coordinator 1, and Ms. Kie Inoue as Assistant Project Coordinator 2. Mrs. Maria Octorayanti was hired as a Project Officer, and Ms. Deandra Arifianti W. was hired as an Assistant Project Officer to support the Japanese staff.

**Mr. Hiroaki Kinoshita**  
Project Coordinator

From May 2021 to December 2023

**Ms. Megumi Tarui**  
Assistant Project Coordinator 1

From May 2021 to December 2023

**Ms. Kie Inoue**  
Assistant Project Coordinator 2

From May 2021 to December 2023

**Ms. Maria Octora Yanti**  
Project Officer

From January 2021 to December 2023

**Ms. Deandra Arifianti W.**  
Assistant Project Officer

From January 2021 to December 2023

**ANNEX**

## Project Year 2022 (1 January - 31 December 2022)

### Brunei Darussalam

No	Name	Position	Affiliation
1	Mohamad Izzannudin bin Haji Bujang	Staff	Brunei Darussalam Food Authority
2	Hjh Dyg Nurul Hani Lianah binti Haji Mohammad Hambali	Staff	Brunei Darussalam Food Authority
3	Hajah Masayu Sa'adatul Amalina binti Hj Md Yusoff	Staff	Ministry of Health
4	Muhammad Anwaruddin bin Ab Durahman	Staff	Ministry of Health
5	Ehra Hussin	Staff	Department of Agriculture and Agrifood
6	Nor Amirah Ehsani Binti Hj Md Manan	Staff	Department of Agriculture and Agrifood
7	Dr Siti Rohaiza Ahmad	Staff	Universiti Brunei Darussalam
8	Dr Saiful Azmi bin Hj Husain	Staff	Universiti Brunei Darussalam
9	Dr Faizah Metali	Staff	Universiti Brunei Darussalam
10	Dr Najeeb Ullah	Staff	Universiti Brunei Darussalam
11	Dr Pooja Shivanand Breh	Staff	Universiti Brunei Darussalam
12	Siti Mariam Fakhriah Binti Haji Yunos	Student	Universiti Brunei Darussalam
13	Koo Pey Ting	Student	Universiti Brunei Darussalam
14	Yumni Haziqah Mohammad	Student	Universiti Brunei Darussalam
15	Nurfaizah Binti Masa	Student	Universiti Brunei Darussalam
16	Muhd Naquiddin Bin Haji Sabli	Student	Universiti Brunei Darussalam
17	Shafinee Yarnina Hj Md Shafri	Student	Universiti Brunei Darussalam
18	Marha Sahirah Binti Majid	Student	Universiti Brunei Darussalam
19	Wong Wei Sann	Student	Universiti Brunei Darussalam
20	Raudhatul Husna Hj Saiful Bahrin	Student	Universiti Brunei Darussalam
21	Norafifah Syakirah Binti Muhammad Sofian	Student	Universiti Brunei Darussalam
22	Dr Syahirah Haji Shahlehi	Staff	Universiti Islam Sultan Sharif Ali

No	Name	Position	Affiliation
23	Dr Siti Nur Idayu Haji Metusin	Staff	Universiti Islam Sultan Sharif Ali
24	Nor Surilawana Binti Haji Sulaiman	Student	Universiti Islam Sultan Sharif Ali
25	Siti Majidah binti Rahim	Student	Universiti Islam Sultan Sharif Ali
26	Siti Nazerah Binti A. Hanni	Student	Universiti Islam Sultan Sharif Ali
27	Muhammad Afif Rusydi Bin Haji Muhammad Kartolo	Student	Universiti Islam Sultan Sharif Ali
28	Nursyahirah Binti Abdullah Saiful Azizi	Student	Universiti Islam Sultan Sharif Ali
29	Dr Aida Maryam Basri	Staff	Universiti Teknologi Brunei
30	Dr Masmunira Rambli	Staff	Universiti Teknologi Brunei
31	Nur Adila Puteri binti Irwan	Student	Universiti Teknologi Brunei
32	Nur Ratna Sari binti Sima	Student	Universiti Teknologi Brunei
33	Dk Siti Salihah binti Pg Hj Mohd Yani	Student	Universiti Teknologi Brunei
34	Muhd Izzul Haikal bin Hj Mohd Sofry	Student	Universiti Teknologi Brunei
35	Amni Sahilah binti Sahrullamzah	Student	Universiti Teknologi Brunei
36	Dr Diana Lee Sze Ling	Staff	Politeknik Brunei
37	Muhammad Aqif Bin Johari	Student	Politeknik Brunei
38	Siti Nur Zakiah Binti Zakaria	Student	Politeknik Brunei
39	Nadiah Binti Muhammad Gurang	Student	Politeknik Brunei
40	Awang Mohammad Mizal Ikhwani Bin Awang Haji Zamady	Student	Politeknik Brunei
41	Md Hafizuddin Bin Md Ali Morni	Student	Politeknik Brunei
42	Ahmad Wazif Bin Abd Wahab	Student	Politeknik Brunei
43	Awang Mohaidi bin Awang Haji Matusin	Staff	Institute of Brunei Technical Education
44	Hjh Nurul Ain binti Awg Hj Sabli	Staff	Institute of Brunei Technical Education
45	Dina Hairunisa @ Mona binti Tajudin	Staff	Institute of Brunei Technical Education
46	Nafii Uddin	Student	Institute of Brunei Technical Education
47	Rashidah Johari	Student	Institute of Brunei Technical Education
48	Rabi'atul Munawarah Kamal	Student	Institute of Brunei Technical Education
49	Zahidah Borhan	Student	Institute of Brunei Technical Education
50	Muhd Alimin Haji Mahli	Student	Institute of Brunei Technical Education

## Indonesia

No	Name	Position	Affiliation
1	Citta Ariestistya Hanifa	Student	Management Business Program, SB-IPB University
2	Azizah	Student	Management Business Program, SB-IPB University
3	Zakky Mustafa Talib	Student	Management Business Program, SB-IPB University
4	Aini Nurachman Dini	Student	Management Business Program, SB-IPB University
5	Achmad Ghiffari Rinaldi	Student	Management Business Program, SB-IPB University
6	Mega Tri Rahmawati	Student	Management Business Program, SB-IPB University
7	Muhammad Farras Alif	Student	Management Business Program, SB-IPB University
8	Rizqa Ula Fahadha	Student	Management Business Program, SB-IPB University

No	Name	Position	Affiliation
9	Muhammad Taufik Prakoso Raharjo	Student	Management Business Program, SB-IPB University
10	Lidya Dieni	Student	Management Business Program, SB-IPB University
11	Jeferson Reiner Resilowi	Student	Management Business Program, SB-IPB University
12	Hananda Dwika	Student	Management Business Program, SB-IPB University
13	Muhammad Farhan Ramadhan	Student	Management Business Program, SB-IPB University
14	Muhammad Rayno Septian	Student	Management Business Program, SB-IPB University
15	Batara Surya Kalbu Hidayat	Student	Management Business Program, SB-IPB University
16	Dyah Ayu Paramitha	Student	Management Business Program, SB-IPB University
17	Erlan Himawan	Student	Management Business Program, SB-IPB University
18	Nurita Ambarwati	Student	Management Business Program, SB-IPB University
19	Ika Dhianawati	Student	Management Business Program, SB-IPB University
20	Milzam Satya Hawari	Student	Management Business Program, SB-IPB University
21	M.Wijdan Hilmy Yahdiyani	Student	Management Business Program, SB-IPB University
22	DEWI INTAN SARI	Student	Management Business Program, SB-IPB University
23	Mitha miftahul jannah	Student	Management Business Program, SB-IPB University
24	Kenny Masbagusdanta	Student	Management Business Program, SB-IPB University
25	Tasya Laudita Rumampuk	Student	Management Business Program, SB-IPB University
26	Ajeng Ayu Sabriani	Student	Management Business Program, SB-IPB University
27	Khoirul Marzuki	Student	Management Business Program, SB-IPB University
28	Mohamad Rizki Ramadhan Nida Fathan	Student	Management Business Program, SB-IPB University
29	Salma Amaliani Putri	Student	Management Business Program, SB-IPB University
30	Dini Anggun Sasmita	Student	Management Business Program, SB-IPB University
31	Achmad Fauzan	Student	Management Business Program, SB-IPB University
32	Faiz Rahmatullah Chita Putra	Student	Management Business Program, SB-IPB University
33	Rifqi Aulia Ramadhani	Student	Management Business Program, SB-IPB University
34	Baharuddin Syah Muwaffaq	Student	Management Business Program, SB-IPB University
35	Muhammad Alvin Jauhari	Student	Management Business Program, SB-IPB University
36	Fadhila Cynthia Sari	Student	Management Business Program, SB-IPB University
37	Suryati Oka Citra	Student	Management Business Program, SB-IPB University
38	Fran Sagita Widodo	Student	Management Business Program, SB-IPB University
39	Putri Indah Oktavia	Student	Management Business Program, SB-IPB University
40	Pantra wijaya	Student	Management Business Program, SB-IPB University
41	Inas Qoniah	Student	Management Business Program, SB-IPB University
42	Reza Fauzan Risch	Student	Management Business Program, SB-IPB University
43	RYAN MAULANA HERWINDO	Student	Management Business Program, SB-IPB University
44	Destia Permasih	Student	Management Business Program, SB-IPB University
45	Nazmi Salim	Student	Management Business Program, SB-IPB University
46	Luni Aulia Safwani	Student	Management Business Program, SB-IPB University
47	Muhammad Ariq Ikhsan	Student	Management Business Program, SB-IPB University
48	Alvin Nurwansyah	Student	Management Business Program, SB-IPB University
49	DONY HIDAYAT ISTIARIZQI	Student	Management Business Program, SB-IPB University
50	Michael Teddy Fernando	Student	Management Business Program, SB-IPB University
51	Astrid Putri Handayani	Student	Management Business Program, SB-IPB University
52	Gita Indri Anjani	Student	Management Business Program, SB-IPB University

No	Name	Position	Affiliation
53	Fajar Abhirama Akhsanul Ikhsan	Student	Management Business Program, SB-IPB University
54	Nadhir Khairunnisa	Student	Management Business Program, SB-IPB University
55	Nabila Cahita Puspitasari	Student	Management Business Program, SB-IPB University
56	Raissa Fidela Andrini	Student	Management Business Program, SB-IPB University
57	Rahadean Makhdani Rahmatullah Mubarik	Student	Management Business Program, SB-IPB University
58	Rizka anggraeni	Student	Management Business Program, SB-IPB University
59	Alvin Jefry	Student	Management Business Program, SB-IPB University
60	Hamada Aulia	Student	Management Business Program, SB-IPB University
61	Tania Ayu Zagita	Student	Management Business Program, SB-IPB University
62	Shofiyah Rahmah Muthmainnah	Student	Management Business Program, SB-IPB University
63	Nurul Fathin Siregar	Student	Management Business Program, SB-IPB University
64	Shania Latifa Mirza	Student	Management Business Program, SB-IPB University
65	Roma Lilik Andrian	Student	Management Business Program, SB-IPB University
66	Reza Muhammad Rifqi	Student	Management Business Program, SB-IPB University

## Lao PDR

No	Name	Position	Affiliation
1	Miss. Kongphaeng Manysaeng	Student	Rural Economics and Food Technology, National University of Laos
2	Miss. Korxialor Xayvan Gye	Student	Rural Economics and Food Technology, National University of Laos
3	Mr. Souphaxay Phetdara	Student	Rural Economics and Food Technology, National University of Laos
4	Mr. Saiysavanh Phommalay	Student	Rural Economics and Food Technology, National University of Laos
5	Mr. Souliphone Sevongsay	Student	Rural Economics and Food Technology, National University of Laos
6	Mr. Xieng Lorkhamthy	Student	Rural Economics and Food Technology, National University of Laos
7	Miss. Daeng Yommalath	Student	Rural Economics and Food Technology, National University of Laos
8	Miss. Boucheng Keomaharnin	Student	Rural Economics and Food Technology, National University of Laos
9	Mr. Phukphong Chanthavisack	Student	Rural Economics and Food Technology, National University of Laos
10	Mr. Phetoudone Buakeosavanh	Student	Rural Economics and Food Technology, National University of Laos
11	Mr. Phetsanaphai Ponthalit	Student	Rural Economics and Food Technology, National University of Laos
12	Mr. Pharyang Cherthor	Student	Rural Economics and Food Technology, National University of Laos
13	Mr. Phoutsady Muentham	Student	Rural Economics and Food Technology, National University of Laos
14	Miss. Yerlahvanh Xaybounyong	Student	Rural Economics and Food Technology, National University of Laos
15	Miss. Vilavanh Dethleusay	Student	Rural Economics and Food Technology, National University of Laos
16	Miss. Van Keonakham	Student	Rural Economics and Food Technology, National University of Laos
17	Miss. Aling Vongnakhone	Student	Rural Economics and Food Technology, National University of Laos
18	Mr. Anat Pheangphanlid	Student	Rural Economics and Food Technology, National University of Laos
19	Miss. Khingthapthim Pathammavong	Student	Rural Economics and Food Technology, National University of Laos
20	Mr. Jimmy Xayyavong	Student	Rural Economics and Food Technology, National University of Laos
21	Miss. Chansouda Atsanavong	Student	Rural Economics and Food Technology, National University of Laos
22	Miss. Jam Singsacksith	Student	Rural Economics and Food Technology, National University of Laos
23	Miss Soukphaphone Chanthasenh	Student	Rural Economics and Food Technology, National University of Laos

No	Name	Position	Affiliation
24	Miss. Southoaly Sithoulack	Student	Rural Economics and Food Technology, National University of Laos
25	Miss. Desiamoua Souako	Student	Rural Economics and Food Technology, National University of Laos
26	Mr. Thayougo Inthavong	Student	Rural Economics and Food Technology, National University of Laos
27	Miss. Neeha Payea	Student	Rural Economics and Food Technology, National University of Laos
28	Mr. Bounthavee Chanmany	Student	Rural Economics and Food Technology, National University of Laos
29	Miss. Paking Sayyalue	Student	Rural Economics and Food Technology, National University of Laos
30	Miss. Parnxyvanh Vongphakdy	Student	Rural Economics and Food Technology, National University of Laos
31	Miss. Maivone Xaisonbut	Student	Rural Economics and Food Technology, National University of Laos
32	Miss. Yeng Lor	Student	Rural Economics and Food Technology, National University of Laos
33	Miss. Youyee Manyka	Student	Rural Economics and Food Technology, National University of Laos
34	Miss. Meenoy Silipunya	Student	Rural Economics and Food Technology, National University of Laos
35	Miss. Anyamany Hansana	Student	Rural Economics and Food Technology, National University of Laos
36	Miss. Ern Sayyalath	Student	Rural Economics and Food Technology, National University of Laos
37	Miss. Akom Khamphoumee	Student	Rural Economics and Food Technology, National University of Laos
38	Mr. Anon Namkong	Student	Rural Economics and Food Technology, National University of Laos
39	Mr. Khamlar Khounvongxai	Student	Rural Economics and Food Technology, National University of Laos
40	Mr. Sephavong Ninpaserd	Student	Veterinary, National University of Laos
41	Mr. Sitthaphon Vannamahaxay	Student	Veterinary, National University of Laos
42	Mr. Tanilan Phimmachack	Student	Veterinary, National University of Laos
43	Miss. Nokphaluk Phommasichan	Student	Veterinary, National University of Laos
44	Miss. Pocklack Thanmanee	Student	Veterinary, National University of Laos
45	Miss. Soumaly Champakeomany	Student	Plant Protection, National University of Laos
46	Miss. Samaiphone Rattaivalasy	Student	Plant Protection, National University of Laos
47	Mr. Xayyasone Keovilay	Student	Plant Protection, National University of Laos
48	Mr. La Vang	Student	Animal Science, National University of Laos
49	Mr. Pormua Chonglythor	Student	Animal Science, National University of Laos
50	Mr. Lee Thor	Student	Animal Science, National University of Laos
51	Mr. Piko Sedchampa	Student	Animal Science, National University of Laos
52	Miss. Marneechan Choumkeomang	Student	Animal Science, National University of Laos
53	Ms. Paphaphone Xayasongkharm	Student	Sustainable Agriculture Resource Management Master Program, National University of Laos
54	Ms. Chitpasong Bouddakham	Student	Sustainable Agriculture Resource Management Master Program, National University of Laos
55	Miss. Mina Koulavong	Student	Sustainable Agriculture Resource Management Master Program, National University of Laos
56	Mr. Keo Thapvongsa	Student	Sustainable Agriculture Resource Management Master Program, National University of Laos
57	Ms. Pan Keobounvong	Student	Sustainable Agriculture Resource Management Master Program, National University of Laos
58	Ms. Somchai Chanthavong	Student	Sustainable Agriculture Resource Management Master Program, National University of Laos
59	Mr. Bounmy Manichith	Student	Sustainable Agriculture Resource Management Master Program, National University of Laos
60	Mr. Kolakot Vongsouthi	Student	Sustainable Agriculture Resource Management Master Program, National University of Laos

No	Name	Position	Affiliation
61	Mr. Kinong Keophaserth	Student	Sustainable Agriculture Resource Management Master Program, National University of Laos
62	Ms. Sadmany Phompacdy	Student	Sustainable Agriculture Resource Management Master Program, National University of Laos
63	Mr. Sayvisene Boulom	Student	Faculty of Agriculture, National University of Laos
64	Mr. Thansamay Dethphakhoun	Student	Faculty of Agriculture, National University of Laos
65	Mr. Somhuck Xay-Jearxiang	Student	Faculty of Agriculture, National University of Laos
66	Ms. Anouthida Keodouangdy	Student	Faculty of Agriculture, National University of Laos
67	Ms. Kangbao Xaythouthao	Student	Faculty of Agriculture, National University of Laos
68	Mr. Maiphan Lorvanthong	Student	Faculty of Agriculture, National University of Laos
69	Mr. Sian Phommaleusa	Student	Faculty of Agriculture, National University of Laos
70	Mr. Mekmano Chantharathy	Student	Clean and Green Services
71	Mr. Soutdavong Kanouthum	Student	Clean and Green Services
72	Mr. Xangker Phongsaly	Student	Clean and Green Services
73	Miss. Maichoulour Vangxeng	Student	Cattle farmer
74	Ms. Mai Inthaphone	Student	Conservation organization
75	Ms Chamsamon	Student	Food and Drug Department, MOH
76	Ms Manyvanh	Student	PPCVS
77	Mr. Douang Savanh Bounphanouxay	Student	Nafri
78	Mr. Phouthason Xaysongkham	Student	Nafri
79	Mr. Kampoun Douangmala	Student	Department of Agriculture Extension and Cooperative, DAEC
80	Mr. Somboun Vongphet	Student	Department of Agriculture Extension and Cooperative, DAEC
81	Mrs. Viengkhoum Bouphasouk	Student	Department of Agriculture Extension and Cooperative, DAEC

## Project Year 2023 (1 January - 31 December 2023)

### Cambodia

No	Name	Position	Affiliation
1	Hak Leakhena	Student	Faculty of Agro-Industry, Royal University of Agriculture
2	Hong Lita	Student	Faculty of Agro-Industry, Royal University of Agriculture
3	An Srey-pin	Student	Faculty of Agro-Industry, Royal University of Agriculture
4	Saing Reaksmeay	Student	Faculty of Agro-Industry, Royal University of Agriculture
5	Kong Sothivann	Student	Faculty of Agro-Industry, Royal University of Agriculture
6	Duong Chenda	Student	Faculty of Agro-Industry, Royal University of Agriculture
7	Say Srey Ne	Student	Faculty of Agro-Industry, Royal University of Agriculture
8	Yeun Rathna	Student	Faculty of Agro-Industry, Royal University of Agriculture
9	Chan Rachana	Student	Faculty of Agro-Industry, Royal University of Agriculture
10	Chhem Virekren	Student	Faculty of Agro-Industry, Royal University of Agriculture
11	Tey Sokhim	Student	Faculty of Agro-Industry, Royal University of Agriculture
12	Nob Seavlang	Student	Faculty of Agro-Industry, Royal University of Agriculture
13	Him Somalina	Student	Faculty of Agro-Industry, Royal University of Agriculture
14	Von Sovanda	Student	Faculty of Agro-Industry, Royal University of Agriculture
15	Tha Daly	Student	Faculty of Agro-Industry, Royal University of Agriculture
16	Iem Chemy	Student	Faculty of Agro-Industry, Royal University of Agriculture
17	Sarem Raksa	Student	Faculty of Agro-Industry, Royal University of Agriculture
18	Sum Tharin	Student	Faculty of Agro-Industry, Royal University of Agriculture
19	Sea Thaivath	Student	Faculty of Agro-Industry, Royal University of Agriculture
20	Dan Thy	Student	Faculty of Agro-Industry, Royal University of Agriculture
21	Yom Sokhour	Student	Faculty of Agro-Industry, Royal University of Agriculture
22	Than Sreynich	Student	Faculty of Agro-Industry, Royal University of Agriculture
23	Eng Sothea	Student	Faculty of Agro-Industry, Royal University of Agriculture
24	Heng Phailin	Student	Faculty of Agro-Industry, Royal University of Agriculture
25	Norl Rachhun	Student	Faculty of Agro-Industry, Royal University of Agriculture
26	Phi Davy	Student	Faculty of Agro-Industry, Royal University of Agriculture
27	Bunchan Irunrong	Student	Faculty of Agro-Industry, Royal University of Agriculture
28	Khom Sreyneth	Student	Faculty of Agro-Industry, Royal University of Agriculture
29	Sao Chiv	Student	Faculty of Agro-Industry, Royal University of Agriculture
30	Chem Sokhon	Student	Faculty of Agro-Industry, Royal University of Agriculture
31	Sreav Sreykuch	Student	Faculty of Agro-Industry, Royal University of Agriculture
32	Oeun Kanha	Student	Faculty of Agro-Industry, Royal University of Agriculture
33	Oy Sreymao	Student	Faculty of Agro-Industry, Royal University of Agriculture
34	Kong Pich	Student	Faculty of Agro-Industry, Royal University of Agriculture
35	Sothy Chantana	Student	Faculty of Agro-Industry, Royal University of Agriculture
36	Sem Tevin	Student	Faculty of Agro-Industry, Royal University of Agriculture
37	Oi Chorvan	Student	Faculty of Agro-Industry, Royal University of Agriculture
38	Oi Kimly	Student	Faculty of Agro-Industry, Royal University of Agriculture
39	Kao Sopheap	Student	Faculty of Agro-Industry, Royal University of Agriculture
40	Kung Raksa	Student	Faculty of Agro-Industry, Royal University of Agriculture

No	Name	Position	Affiliation
41	Nang Sreyroth	Student	Faculty of Agro-Industry, Royal University of Agriculture
42	Leat Malis	Student	Faculty of Agro-Industry, Royal University of Agriculture
43	Heak Rittavan	Student	Faculty of Agro-Industry, Royal University of Agriculture
44	Tok Rathana	Student	Faculty of Agro-Industry, Royal University of Agriculture
45	Bunna Thida	Student	Faculty of Agro-Industry, Royal University of Agriculture
46	Phoeung Sreynich	Student	Faculty of Agro-Industry, Royal University of Agriculture
47	Men Sreypov	Student	Faculty of Agro-Industry, Royal University of Agriculture
48	Bunnat Rit	Student	Faculty of Agro-Industry, Royal University of Agriculture
49	Van Phirun	Student	Faculty of Agro-Industry, Royal University of Agriculture
50	Thou Thai Ro	Student	Faculty of Agro-Industry, Royal University of Agriculture
51	Phok Toty	Student	Faculty of Agro-Industry, Royal University of Agriculture
52	Miech Tit	Student	Faculty of Agro-Industry, Royal University of Agriculture
53	Sum Davin	Student	Faculty of Agro-Industry, Royal University of Agriculture
54	Pov Seavmey	Student	Faculty of Agro-Industry, Royal University of Agriculture
55	Kol Picborey	Student	Faculty of Agro-Industry, Royal University of Agriculture
56	Lon Chhit	Student	Faculty of Agro-Industry, Royal University of Agriculture
57	Meoun Rosa	Student	Faculty of Agro-Industry, Royal University of Agriculture
58	Nhien Sonita	Student	Faculty of Agro-Industry, Royal University of Agriculture
59	Lon Channy	Student	Faculty of Agro-Industry, Royal University of Agriculture
60	Ean Tharin	Student	Faculty of Agro-Industry, Royal University of Agriculture
61	Veoung Vutey	Student	Faculty of Agro-Industry, Royal University of Agriculture
62	Dy Narin	Student	Faculty of Agro-Industry, Royal University of Agriculture
63	Chan Sayuk	Student	Faculty of Agro-Industry, Royal University of Agriculture
64	Cham Theary	Student	Faculty of Agro-Industry, Royal University of Agriculture
65	Khan Sopha	Student	Faculty of Agro-Industry, Royal University of Agriculture
66	Houen Chhenghear	Student	Faculty of Agro-Industry, Royal University of Agriculture
67	Dong Phanna	Student	Faculty of Agro-Industry, Royal University of Agriculture
68	Pech Phrearun	Student	Faculty of Agro-Industry, Royal University of Agriculture
69	Chao Echhinh	Student	Faculty of Agro-Industry, Royal University of Agriculture
70	Khon Chakriya	Student	Faculty of Agro-Industry, Royal University of Agriculture
71	Phe Peniel	Student	Faculty of Agro-Industry, Royal University of Agriculture
72	Soun Chhorvorn	Student	Faculty of Agro-Industry, Royal University of Agriculture
73	Som Sreypov	Student	Faculty of Agro-Industry, Royal University of Agriculture
74	Nay Makara	Student	Faculty of Agro-Industry, Royal University of Agriculture
75	Khorn Soknang	Student	Faculty of Agro-Industry, Royal University of Agriculture
76	Chhay Sreymom	Student	Faculty of Agro-Industry, Royal University of Agriculture
77	Ban Rothka	Student	Faculty of Agro-Industry, Royal University of Agriculture
78	Thorn Soknim	Student	Faculty of Agro-Industry, Royal University of Agriculture
79	Seng Narong	Student	Faculty of Agro-Industry, Royal University of Agriculture
80	Sun Nun	Student	Faculty of Agro-Industry, Royal University of Agriculture
81	Pom Pisey	Student	Faculty of Agro-Industry, Royal University of Agriculture
82	Sam Chantehoeurn	Student	Faculty of Agro-Industry, Royal University of Agriculture
83	Chhoern Chhany	Student	Faculty of Agro-Industry, Royal University of Agriculture
84	Ly Somoun	Student	Faculty of Agro-Industry, Royal University of Agriculture
85	Soeun Sreynith	Student	Faculty of Agro-Industry, Royal University of Agriculture

No	Name	Position	Affiliation

		Mr. Kampoun Douangdala		
		Mr. Somboun Vongphet		
		Mr. Viengkhone Bounphasouk		
35	AIE Oun Farm	Mr. Anouthikone Sipaseuth	Linking Small Farmers to Market	Alternative way to commercialize vegetables to restaurant and hotels
36	National Federation of Agricultural Cooperative Association (ZEN-NOH)	Mr. Shigeshi Oonishi	Supply Chain/Logistics	Agricultural supply chain & product distribution (rice, fruits, vegetables)
37	Lyly Kameda Co., Ltd.	Mr. Atsuro Baba	Agribusiness	Current status, challenges, and future prospects for business using rice in Cambodia
		Mr. Yasuhiro Wakatsuki		

## Matrix of Evaluation Result of FVC Training Course in Phase 3

### Project Year 2021 (1 January - 31 December 2021)

	Evaluation Questions	Average Response Score per University										Average Score
		RUA	NUL	IPB	UPM	VSU	KU	VNUA				
1	The lecture was well organized	4,48	4,18	4,60	4,70	4,75	4,67	4,84	4,60			
2	The contents of the lecture was abundant	4,18	4,35	4,48	4,63	4,77	4,28	4,83	4,50			
3	The lecture materials (slides, videos, etc.) contributed to the understanding	4,33	4,13	4,54	4,64	4,75	4,58	4,78	4,54			
4	The lecturer encouraged discussions and responded to questions	4,27	4,11	4,49	4,62	4,67	4,53	4,74	4,49			
5	The lectures provided you new insights and knowledge	4,36	4,23	4,60	4,63	4,77	4,58	4,79	4,57			
6	The topic of this lecture was relevant to the situation your country	4,41	4,29	4,57	4,60	4,74	4,54	4,74	4,56			
7	The lecture gave you a concrete image of strengthening the FVC in your country	4,32	4,27	4,50	4,57	4,74	4,52	4,74	4,52			
8	The knowledge/skills provided in this lecture will be applied practically and continuously to my future study	4,26	4,24	4,46	4,56	4,72	4,43	4,73	4,49			
9	I feel motivated by the course to engage in the subject matter	4,22	4,25	4,44	4,59	4,70	4,45	4,74	4,48			
10	I actively participate and contribute to the lecture	4,07	4,16	4,20	4,17	4,37	3,87	4,42	4,18			
11	Altogether, the course built on my existing knowledge	4,12	4,34	4,49	4,55	4,66	4,30	4,65	4,44			

### Project Year 2022 (1 January - 31 December 2022)

## Lecturer List of FA Training Course in Phase 3

No	Company/Organization	Lecturer Name	Content of Lecture
1	Agricultural Technology Institute of Nagano Farmer's Federation	Mr. Jun Takizawa	Hands-on training; pretreatment (Ornithine in mushroom, Procyanidins in apple juice)
2	Brawijaya University	Prof. Dr. Muhammad Sasmito Djati	Information on Jamu in Indonesia
3	Doshisha Women's College of Liberal Arts	Prof. Dr. Minoru Sugiura	Does betapicrotoxanthin prevent lifestyle-related disease?
4	Food and Agricultural Materials Inspection Center (FAMIC)	Mr. Yoshinao Ito	<ul style="list-style-type: none"> <li>- Introduction of JAS for testing methods</li> <li>- Techniques and protocols of Ornithine JAS</li> <li>- International standardization of testing methods for effective substances</li> <li>- JAS testing methods (focusing on determination of functional substances)</li> <li>- Study and method validation for the development of Methylated Catechin JAS, <math>\beta</math>-cryptoxanthin JAS, Procyanidins JAS and Lycopene JAS"</li> </ul>
		Mr. Tomohiro Koiwa	
		Mr. Takefumi Sonoda	
		Mr. Hiroyuki Tamaki	
		Mr. Hideyuki Sasaki	
		Ms. Yurie Okada	
Ms. Sachiko Kakubari			
5	HOKUTO Corporation	Dr. Hitoshi Kobayashi	Healthy functional food (mushroom)
		Dr. Hiroki Nakai	
6	IPB University	Dr. Dase Hunaefi	Sensory and antioxidant activities of Indonesia Silver Needle White Teas
7	Japan bio Measurement & Analysis Consortium (JMAC)	Dr. Hiroki Nakae	Standardization in food industries
8	Japan Food Research Laboratories (JFRL)	Ms. Mami Nishimiya	Hands-on training; pretreatment (Catechin in green tea, $\beta$ -cryptoxanthin in mandarin orange)
		Mr. Takashi Mikami	
		Ms. Honoka Takahashi	
		Mr. Yoshito Tsuchiyama	
9	Kagome Co., Ltd.	Dr. Kazutaka Yoshida	Health benefits of vegetables (application and development off vegetable-related products for prevention of lifestyle diseases)
10	Ministry of Agriculture, Forestry and Fisheries (MAFF) Japan	Ms. Yoshiko Hashimoto	Outline of Japanese Agricultural Standards
		Ms. Chie Shindo	
		Mr. Hiroyuki Tamaki	
		Mr. Tsubasa Hashimoto	
		Ms. Ayako Yokota	
11	National Agriculture & Food Research Organization (NARO)	Dr. Mari Maeda-Yamamoto	<ul style="list-style-type: none"> <li>- Development of functional agricultural products including green tea</li> <li>- The use of functional food labeling system in Japan</li> <li>- New food development for well-being improvement in Japan</li> <li>- Physiological function and analysis of apple procyanidin</li> </ul>
		Dr. Toshihiko Shoji	
12	National University of Singapore (NUS)	Prof. Huang Dejian	<ul style="list-style-type: none"> <li>- Introduction of antioxidant analysis</li> <li>- Antioxidant assays (techniques and protocols)</li> </ul>
		Dr. Lu Yuyun	
13	PT. Ditek Jaya	Mr. Alfian Mauludin	HPLC troubleshooting and maintenance
14	Ritsumeikan University	Prof. Dr. Mikio Nishizawa	<ul style="list-style-type: none"> <li>- Traditional Japanese medicine, functional foods and crude drugs</li> <li>- Food culture and wellbeing -- a comparison between Japan and Indonesia</li> </ul>
		Prof. Dr. Mariko Arata	

No	Company/Organization	Lecturer Name	Content of Lecture
15	Self Care Food Council	Mr. Kazuya Katada	New food development for well-being improvement in Japan
16	Shimadzu (Asia Pacific) Pte Ltd.	Dr. Sun Zhe	- Basic understanding of UHPLC; Different elements of HPLC and its functions - Hands-on training; data analysis with HPLC (Catechin in green tea, Ornithine in mushroom, $\beta$ -cryptoxanthin in mandarin orange, Procyanidins in apple juice)
17	Shimadzu Malaysia Sdn. Bhd.	Nur Izzma Hanis Binti Abdul Halim	HPLC troubleshooting and maintenance
		Sam Lim	
18	Trung Son T.S.S.E Scientific Equipment & Tour J.S.CO.	Mr. Kieu Hoang Ha	HPLC troubleshooting and maintenance
19	VC Lab Science Co., Ltd.	Mr. Latsamy Souvanthong	- Analysis process and result interpretation - Maintenance and precaution of application - Practical works and HPLC utilization
		Mr. Tongpan Dengmany	
		Mr. Phetdavanh Haksasouk	
20	X-Lab Co., Ltd.	Mr. Kang Panha	HPLC troubleshooting and maintenance
21	-	Dr. Tetsuhisa Goto	- Understanding of ISO/IEC 17025 and its key points - Audit of ISO/IEC 17025 (with workshop) - Importance of method and quality assurance in analysis

## Matrix of Evaluation Result of FA Training Course in Phase 3 Project Year 2021 (1 January - 31 December 2021)

### Level of Understanding

No.	Questions	NUS	
		Pre-survey Average Before Program	Post-survey Average After Program
1	Understanding of Japanese Agricultural Standards (JAS)	1,67	3,87
2	Understanding of JAS Testing Methods	1,48	3,80
3	Understanding of ISO/IEC17025	2,01	3,83

### Lecturer Performance

No.	Questions	NUS
		Average
1	The whole program was well organized/structured	4,20
2	The program was relevant to the situation and needs in your country	4,02
3	Participating in this program contributes to your deeper understanding of food analysis.	4,24
4	Continuous implementation of this kind of program will be effective to improve food analysis knowledge/skills in your country.	4,48
5	The knowledge/skills given in this program will be applicable practically and continuously to your future work/study	4,13

\*1: Strongly Disagree – 5: Strongly Agree

8	PT. Amerta Indah Otsuka	Ms. Revina Ratna Rumiyantri	Food Safety in Food Manufacturing

## Matrix of Evaluation Result of FSM Training Course in Phase 3 Project Year 2021 (1 January - 31 December 2021)

### Questionnaire

No.	Question	UPM	VNUA
		Average	Average
1	Do you understand what Hazard Analysis and Critical Control Point (HACCP) is?	4,24	4,24
2	Do you understand what Japan Food Safety standard (JFS) is?	3,98	3,98
3	The lectures were well-organized.	4,49	4,49
4	The lecture materials contributed to the learning process.	4,67	4,67
5	The knowledge/skills you gained in the lectures will be applicable to your future work/study.	4,55	4,55
6	The lecturers provided new insights and knowledge.	4,65	4,65
7	The topics of the lectures were relevant to the situation in your country.	4,57	4,57
8	The lectures gave you a concrete idea of how to strengthen food safety management in your country.	4,57	4,57
9	There are opportunities for you to apply the knowledge and skills you gained in this program in your country.	4,55	4,55

## Project Year 2022 (1 January – 31 December 2022)

### Level of Understanding
