

Organization and Main Tasks

Planning and Coordination Division

Planning and Organization Section

Unit for Planning and Organization Planning and coordination of assay task and test products of veterinary medicinal products (VMPs)

Unit for Technical Coordination....Collecting data and technical training of assays on VMPs

Evaluation and Organization Section

Unit for Biological Products....Technical review of application for manufacturing/marketing approval and application for registering drug substances of biological products

Unit for General Drugs....Technical review of application for manufacturing/marketing approval and application for registering drug substances of (VMPs) (excluding biological products and antibiotics)

Unit for Antimicrobial Products....Technical review of application for manufacturing/marketing approval and application for registering drug substances of antimicrobial products

Technical Guidance Section

Unit for Technical Review....Reevaluation and equivalence tests on VMPs

Unit for Research and Guidance....Research based on various criteria and submission of clinical studies on VMPs

Quality Assurance Section

Unit for Quality Assurance....Evaluation of assay results of VMPs

Unit for Management of Reference Standards....Evaluation of assay results of reference standards on VMPs, assays of VMPs and inspection of biosafety

Senior Officer for VMPs Investigation

....Review of technical matters on assays of VMPs

Senior Officer for Veterinary Medical Devices Investigation

.... Review of technical matters for inspections of medical devices

Senior Officer for VMPs

.... Collection/organization of data of reevaluation/international assay criteria for veterinary drugs

Senior Officer for Biosafety

.... Planning and organization of technical matters on biosafety

Organization and Main Tasks

Administration Division

Unit for Administration	}	Administration, manager for personnel affairs and management/welfare in general
Unit for Personnel Affairs		
Unit for Management/Welfare		

Accounts Division

Unit for Budgets and Accounts	}	Budgets, accounts and management of the government buildings
Unit for Accounting		
Unit for Supplies		
Unit for National Property		

Assay Division I

(Staff)	(Sections and Main tasks)
Section Leader	(i) Viral Assay Section I
Senior Researcher	 Assays of virus formulations for mammals
Chief Researcher	(ii) Viral Assay Section II
Chief Inspector	 Assays of virus formulations for chickens
Inspector	(iii) Bacterial Assay Section
Skilled staff	 Assays of bacteria formulations
	(iv) Immunology and Pathological Assay Section
	 Overall management of pathological assays and standard references for assays of biological products and Regenerative, Cellular therapy and Gene therapy products

Assay Division II

(Staff)	(Sections and Main tasks)
Section Leader	(i) Quality Assay Section
Senior Researcher	 Quality assays of VMPs
Chief Researcher	(ii) Safety Test Section I
Chief Inspector	 Biological safety tests, assays for drug-resistant microbial strains and management of reference standards for assays of antibiotics and strains
Inspector	(iii) Safety Test Section II
Skilled staff	 Assays for residues of VMPs
